SECOND TRUCK-BUS BILL REPORTED OUT

The roads and highways committee of the senate Saturday voted to report out favorably the second Lynch truck and bus bill. The committee favored the bill as passed by the house with exception of one proposed amendment.

The senate committee amendment proposed to give contract carriers the option of paying seven instead of three per cent of their gross revenues as an alternative to the one-mill per ton levy included in the Lynch measures.

Members of the committee held, however, that the higher rate would work an injustice on heavy contract carriers that usually carry pay loads in only one direction, as for example, oil trucks.

The committee concurred in the house approval of three-fourths mill per ton-mile levy to be charged against private carriers and raised no objection to minor licensing changes of trucks passed by the house.
