PREVENT BEER SALES, THREAT

Women in 20 States Active Already, Leader Says; **Picketing Planned**

National Conference Tells Roosevelt he Cannot Sign Bill Legally

WASHINGTON, March 19. -(AP) -On the eve of probable enactment of the beer bill by congress tomorrow, two women prohibition leaders tonight issued statements to the effect that women intended to "plan a revolution" against it in the states.

Mrs. Henry W. Peabody, chairman of the woman's national committee for law enforcement, detlared a "revolution" already was "under way in 20 states." She asserted that the beer bill now before congress would "nullify the 18th amendment."

Mrs. F. I. Johnson, vice-chairman at large for the same organization, reported she had been holding a series of meetings with women in 24 states and had found that "the hypnotic-hysteria superinduced largely by highly paid brewery propaganda, prior and subsequent to the Chicago convention, is beginning to abate."

Mrs. Johnson declared "the womanhood of the far west and midwest is rubbing its eyes and getting into action," and that some were "declaring themselves ready to picket state lines," and "one large group has taken as its secret alogan-'Beer to blood'."

WASHINGTON, March 20 -(AP)-In an eleventh-hour attempt to prevent the legalization of 3.2 per cent beer, the national conference of organizations supporting the eighteenth amendment tonight urged President Roosevelt to veto the measure.

It made public a letter sent to the chief executive contending he could not sign the bill, expected to reach the White House tomorrow, without violating the consti-

"The bill was not designed as a measure for prohibition enforcement but to raise revenue," the letter said. "It is based upon the false legislative promise of seeking to legalize the maximum amount of alcohol in a beverage not actually intoxicating, which is not actually intoxicating, which is something physically and scientifically impossible of accomplishment, since alcohol affects no two individuals alike.

'The percentage fixed in the bill is that recommended by the representatives of the brewing trade as the amount which would afford the largest volume of sales and result in the greatest amount of revenue to the government."

The communication was signed by F. Scott McBride, general superintendent of the Anti-Saloon eague of America, and Edward B. Dunford, its attorney; Ella A. Boole, president of the National Woman's Christian Temperance Union, and Izora Scott, the legislative representative; Clarence True Wilson, general secretary of the board of temperance, prohibition and public morals of the Methodist Episcopal church; Bishop James Cannon, Jr., chairman of the board of temperance and social service of the Methodist Episcopal church, South, and Eugene L. Crawford, the general secretary; William Sheafe Chase, general superintendent of the International Reform federation, and Edwin C. Dinwiddie, superintendent of the National Temper

Cargoes are Certain Sign Spring Here W. S. Levens of Salem Will

POTTLAND, March 20 .- (AP) - Ships' barometers, no doubt, serve their purpose adequately in forecasting weather over a 24hour span, but a ship's cargo can tell you of the change of an entire season. This was the solemn assertion of the statistician of the Merchants' Exchange here today as he observed that the first day

of spring was at hand. The barometer may go up, he said, or it may go down; the almanac may show funny signs and funnier prognostications; the rheumatism may be going strong or it may subside, but when a ship's cargo list shows kid's marbles, lawn mowers, bird cages and croquet sets-then it's spring.

In the month of March, this statistician found, no less than 325 pounds of marbles reached Portland in one shipment. Then there -Charles Kimzey waived prelim- was an item of 2120 pounds of pounds of bird cages, thousands of ies, 42,913 pounds of lawn mow-
