They claim that soon we will have air travel developed so that one can leave New York City at 7 a. m. and travel with the sun and arrive on the Pacific coast at 7 a. m. in exactly nothing flat.

It is also claimed that still faster planes will be developed. These planes will travel faster than the sun. In fact, it is claimed that in trip around the world one would arrive back to the starting place day before yesterday.

When all this comes true advertising will be still more useful as a buying guide.

My Gosh Whaz-zat We Hear?

We said to our self: Doggone we gotta go to takein better care of our self, first thing we know somebody'll be sendin us out to Doctor Steiners institute. So we says to a fellow leanin against a light post, do we look natural to you? Whatja ye mean look-natural, if walkin like a camel is natural youre natural allright. No no, we says, it isnt our looks we're scared about, its that funny talkin we're hearin just now as we were meanderin along the street, some body yells right in one of our ears say it said don't fergit, we sell two bunches of green onions for a nickle. You Gump he says, dontja know what that is? Thats onea those Chain Store Boys tellin the folks what the Chain Stores is doin fer em. Huh we said as we got our feet to trackin again, them the same fellers that saved the country once arent they? Yeah he said theyve done a lot to the country you mean. We were so glad to find out there wasent anything wrong with us we just came back to the Market and started reducing things right and left.
