Buying is Renewed At Lower Prices; Await Congress

corn values. Big rifts appeared in general speculative demand for cereals, especially corn, and many traders expressed doubts as to emphasis which in various quarters had been placed on possible currency inflation as a stimulating factor. Numerous other tenders friendly to higher prices adopted a waiting attitude pending fresh legislative developments at Washington in regard to farm commodity measures.

At lower levels of prices, however, renewed buying support was evident and losses were largely overcome late. Wheat closed nervous at the same as yesterday's finish to 1/4 cent lower, corn %-% down, oats 14-16 off.

Low Grades Retard Market; hen Trade ls Very Firm

PORTLAND, April 7 .- (AP) --Market for eggs was so demoralized by undergrade offerings as well as uncandled stock that some of the former more active buyers have practically quit purchasing supplies at country points. Lack of uniformity in the prices has never been so generally shown as during the last couple of weeks. With retailers actually offering supplies at prices that are lower than what the country was getting or expecting for eggs, there was an

entire lack of profit in handling. This condition appears due mostly to the continuance of the big run of country or farm eggs which are being traded to retailers for goods and then resold to Portland wholesalers or retailers below their actual worth because the cash is needed. Lack of proper inspection of the markets, due to insufficient funds to carry on the work, was also a big factor.

Market for butter continued to reflect more or tess of a steady tone locally and without general prire change for either prints or cubes. Best demand continucd in the standard and lesser stores along the coast. Butterfat remained firm.

Market for heavy hens was very firm with the approaching Jewish holidays. In some instances an advance in the price has beer forced. Light hens continued firm at full prices. Broilers alone were easy but unchanged in price. There continued a surprising movement of turkeys into the

Portland market, Total volume

was not heavy but considering the season, was more than usual. Prices were held at least steady. The public was evidently not very keen about buying high priced strawberries. Those from Louisiana have shown good color and quality but it has been necessary to drop the price to \$3.50
