### Some of Spring Signs Fail But Wild Flowers Cannot Be Disputed; They're Here

ZENA, April 15 — Oregon pioneers have hesitated to announce definitely that spring is here and they say that all signs fail at times. Much stormy weather of rain and snow has visited us since the first pussy willows opened and spring was announced so perhaps in the future the charming lady will not be heralded by the pussies and frog chorus but by other signs.

Who can dispute the fact that the lady of varying moods has really arrived when old Mother Nature is covering woods and fields with a carpet of wild flowers? Dainty, shy orchids are hidden far in the woodland recesses while the bolder flowers which

crave the sunshine such as wake robin, bird bill, lamb tongue, bright dog tooth violet and pastel tinted spring beauty are to be found in less shaded spots.

Birds are on the wing and the mating call of the black crested california quail can be heard all day long as with his mate he bustly bun's in the fields for some likely spot, sheltered alike from the elements and marauding animals, in which to build their summer home. And last conclusive proof that spring is here is that old man buzzard himself can be seen sitting on a fence any warm day stretching his 6 foot wing spread to catch the welcome sun rays.

Participants will be grade students only. The general program will follow the spelling contests in the afternoon and will begin at 2. The program has not been completed, but each school will present one number.

Maxine Parrish, a first-grader at Scio, will be May queen. Dorene Eastburn will be flower girl; Wayne McDonald will carry the crown; and the paces will be Johnny Kendle and Billy Morgan.

The boys will hail the approach of the May queen with a May song.

Girls from the 5th, 6th, 7th and 8th grades will wind the Maypole.
