

OREGON FOREST CHIEF OUTLINES RELIEF SCHEME

2000 From This State Will Get Work, Some Coming From Other States

Some Plans, Notably As to Private Land Tasks, Still Uncertain

State Forester Lynn F. Cronmiller returned to Salem Sunday night after spending a number of days in Washington, D. C. conferring with federal officials in regard to the president's unemployment program on the forests of the nation.

He states that the most interest shown in the entire program is relative to the various state allotments of men. This, according to the announcement of the secretary of labor, is to be on the basis of population. This would place Oregon's allotment at approximately 2000 men.

Another thing that has been announced is that the preference will be given to men between the ages of 18 and 25. However, placing of the 250,000 men to work in the forests is a matter of trial and it is a success, it is altogether possible that many more men will be placed in the work.

It is also quite likely that men from other states will be sent to some of the Oregon camps. In considering the location of the forests of the nation, this is essential if the non-forested states are to get their men to work. The men will be returned to their homes after the work is completed.

Part of Pay Must Go to Dependents
Men from the work will be chosen from those who have registered with the various relief organizations for work. They will be given a brief medical examination and then permitted to enroll if they meet the requirements. They must agree to send a certain amount of their pay to dependents in eastern camps, this has been fixed at a minimum of \$22 per month.

The men are then sent to a military camp for a two weeks period of conditioning for the woods work. This consists of a thorough medical examination, exercise and proper food. All clothing and toilet articles will be provided.

In the actual woods work, the president has announced that the camps are to contain a minimum of 200 men and they are to be under the management of the army. The army is to construct (Turn to page 8, col. 1)

Forest Army Quota For Marion County 126; Recruits Soon

Allotment Made by State Relief Committee; District Meeting Slated Wednesday At Corvallis; 676 Apply Here

PORTLAND, Ore., April 17—(AP)—The state relief committee, meeting here today, allotted to each of Oregon's 36 counties its quota of men to make up the first contingent in this state of the 250,000 that will eventually be recruited for forest service projects as outlined in President Roosevelt's relief program.

SCOTTSBORO CASE DELAYED BY JUDGE

Purported Statement From Defense Attorney Said Unfair to Negroes

DECATUR, Ala., April 17—(AP)—The Scottsboro case was postponed indefinitely today because the court held a purported statement of Alabama jurists by Samuel L. Liebowitz of defense counsel had prejudiced the cases against the seven negroes charged with assaulting two white girls hoboes and rebuked Liebowitz.

Concerning the jury that convicted Haywood Patterson—first of the negroes to face retrial here—the New York Herald-Tribune quoted Liebowitz like this: "If you ever saw those creatures, those biggus whose mouths are slits in their faces, whose eyes pop out as you like frogs, whose chins drip tobacco juice, bewhiskered and filthy, you would not ask how they could do it."

The dramatic climax to the long-drawn-out Scottsboro case came after Judge Horton had sentenced Patterson to die in the electric chair June 16 for criminal assault on Mrs. Victoria Price, a Huntsville cotton mill worker and a hobo.

N. Y. BANK HOLDUP SUSPECT IS HELD

TUCSON, Ariz., April 17—(AP)—Chief of Police Jack E. Dyer said tonight Tucson police have recovered \$53,000 worth of negotiable securities stolen from the Chase National bank of New York in a daylight robbery about 18 months ago and have arrested one man they believe was implicated in the robbery.

Chief Dyer gave the name of the suspect as Danbridge H. Bibbs, alias R. R. McMullen. Sewed into the waist of Bibbs' trousers, the police chief said, were \$53,000 in bonds, listed as part of the loot obtained in the New York bank robbery in which two police officers were killed.

Highland Avenue Through Street West of Brooks

North Salem residents last night gained action from the city council which they believe will reduce the mounting number of automobile accidents occurring there. The council passed the ordinance making Highland avenue a through traffic street from Brooks avenue to Broadway street. Numerous serious accidents have occurred on Highland avenue the past several months. In one accident, an automobile was catapulted into the side of a house.

Civic Chorus, Madrigal Club Gain New Laurels

The Salem Civic Male chorus and the Madrigal club gained fresh laurels at the benefit concert held in the armory last night, and a new artist had his premiere, Emery Stewart Hobson, whose numbers drew hearty acclaim. The concert was under the conductorship of Prof. E. W. Hobson; and as is characteristic of his programs, was presented with almost flawless perfection.

CONVICTS WARN ALIENIST ABOUT SANITY HEARING

Catton Said In Receipt of Hint From Prison on Winnie Judd Case

Condemned Woman Stages Scene, Is Taken Away But Soon Returns

FLORENCE, Ariz., April 17—(AP)—Shrieking imprecations, Winnie Ruth Judd was removed forcibly from the court room here today, where a hearing was in progress to determine the sanity of the condemned slayer of Agnes Anne Lerol, and taken to the adjacent state prison.

After a few minutes in the prison and a short drive around country roads in custody of Warden A. G. Walker, she returned to the court room, meekly, sat down on a chair, placed her chin in her hands and stared at the carpet beneath her feet.

The outburst, the most violent of her demonstrations since the hearing began last week, came while her husband, Dr. William Judd, was on the witness stand testifying to a belief his wife was insane.

He had been preceded by the parents of the young woman, the Rev. and Mrs. H. J. McKinnell, of Darlington, Ind., who related to the jury of 12 men the belief that Judd was a victim of insanity which had been traced back 125 years within the family.

Mrs. Judd's wild cries and gestures broke upon the court room like a storm. "Leave me alone," she suddenly shrieked. "Quit torturing me. You bullies, you cowards, you gangsters, quit torturing me."

She was taken away to the state prison at McAlester for safe-keeping. Arrested this afternoon in connection with a recent burglary, Johnson was grilling concerning the murder of the 60-year old seamstress when a letter written by him was found in a pocket of a coat.

NEGRO CONFESSES WOMAN'S SLAYING

MUSKOGEE, Okla., April 17—(AP)—County Attorney Phil K. Oldham announced tonight that Bill Johnson, 30-year old negro, had confessed the hammer murder of Miss Mary Wolfenberger, a seamstress here the night of last December 27.

The negro immediately was taken to the state prison at McAlester for safe-keeping. Arrested this afternoon in connection with a recent burglary, Johnson was grilling concerning the murder of the 60-year old seamstress when a letter written by him was found in a pocket of a coat.

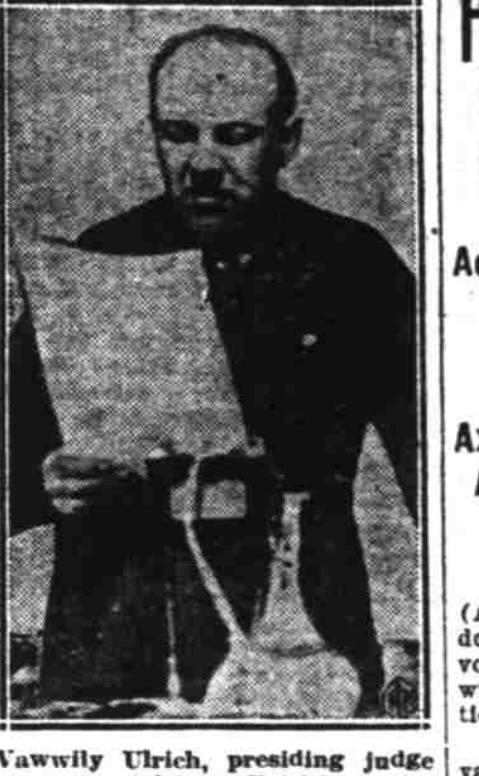

The letter read in part: "A woman was killed here. It's getting hot for me. I've got to get out of town."

Oldham said Johnson told officers he killed the woman with a hammer when she resisted robbery. Johnson explained he carried the hammer to knock locks off automobile tires.

What's More He Has Fish To Prove It

TILLAMOOK, Ore., April 17—(AP)—A fishing license is similar to poetic license, but Jack Moors of this city had his "catch" to prove the latest fish story told in the district court.

He Rules Over Sabotage Trial

Vawwily Ulrich, presiding judge at the trial of British engineers charged with sabotage in Moscow.

FIVE-YEAR PLAN OF SABOTAGE CHARGED

Prosecutor Asks That One Of British Engineers' Cases Be Dismissed

MOSCOW, April 17—(AP)—A "five-year plan of sabotage" by six British electrical engineers on trial for bribery, sabotage, and espionage, was charged tonight by the counsel for three of their Russian co-defendants.

The accusation was made at the beginning of the defense summation, shortly after Prosecutor Andrei Vishinsky asked that charges against Albert W. Gregory be dismissed but that the five other British employes of the Metropolitan-Vickers Electrical company be convicted as "spies, saboteurs and bribers."

Speculation regarding the possible verdicts included ten-year sentences for two of the Britons, a possible three-year sentence for one of them, and death sentences for two of the Russians. It was speculated also that the other nine Russians would be given prison terms and that two Britons would probably be released and bound over.

The session tonight was devoted to pleas by four defense attorneys, all of whom are acting on behalf of the prisoners who had pleaded guilty and whose activities therefore were confined to the most perfunctory sort of defense.

A. A. Smirnov, counsel for William Vickers, Electrical, was called to plead for any of the Britons. He emphasized his client had been crippled since childhood.

"Otherwise his legs might have brought him to a proletarian environment," Smirnov declared.

JUNIORS ARE FIRST WITH ANNUAL FLUNK

Juniors at Willamette university put on noiseless roller skates yesterday and raced off to the coast for the start on the flunk day—junior flunk day.

The junior class made a neat getaway, albeit sorrowful underclassmen and chagrined seniors were not tardy in learning that the group were presumably at Nelscott—enjoying all the fun that only the coast can produce.

Seniors, too, have an en masse spasm of "hookey" in the spring, but as yet their 1933 flunk day has not come to pass. Some old time students there are who say "It's tradition that the seniors get off to a flying start on the flunk day proposition—but be that as it may, the juniors did it this year—and last year, too."

Platinum Blonde Robins Outcasts But Don't Mind

PORTLAND, Ore., April 17—(AP)—A couple of birds that dared to be different are being given the "go-by" by their buddies, but their determination to "face life together" brought them a lot of sympathy from Portland residents today.

INFLATIONISTS' PLAN DEFEATED IN U. S. SENATE

Administration Sentiment Upheld by Slim Margin; Program Advanced

Axe is Sharpened for Army; At Least 2000 Officers And 12,000 men to go

WASHINGTON, April 17—(AP)—Free silver was voted down in the senate today by a ten-vote margin, the administration's will prevailing over strong inflationist sentiment.

With that vote and with approval by the house, 252 to 110, of a resolution to place in President Roosevelt's hands power to prohibit shipment of arms and munitions, the executive's program in congress moved two long steps ahead.

As the legislators voted, the president was having the economy axe sharpened for the army. Two to three thousand officers and twelve to fifteen thousand men probably will be withdrawn from the present strength of 12,000 to 17,000, respectively, to save \$90,000,000.

The senate inflation vote was 43 to 33, on the effort of Senator Wheeler (D. Mont.) to reach the old Bryan 16 to 1 plan for re-monetizing silver at a fixed rate of value to gold to the pending farm price-raising and mortgage refinancing bill.

The margin of strength for the administration was expected by leaders to show the way for similar action on the farm plan which has been languishing in senatorial debate.

Earlier, the senate had cleared off another delaying obstacle by refusing, 52 to 32, to reconsider the five-year work week bill it passed many days ago. This had been kept from the house by an attempt in the senate to submit imports to the same working time limit the bill imposes on domestic products.

The impending army personnel cut became known after Secretary Dern and Lewis W. Douglas, director of the budget, had conferred with the president. Dern is to submit his completed economy plan at the White House tomorrow.

LEGIONNAIRES NOT TOLD ABOUT MARCH

Representatives of the Workers' Ex-Servicemen's league failed to appear at the meeting of Capital post, American legion, to seek support of a second "bonus march" on Washington, D. C. After having granted the league the floor, the legionnaires went so far as to send a committee to hunt up the league speaker. But he could not be found.

The short meeting was devoted to business matters, among them the announcement that plans were underway to obtain state support in sending the national champion drum corps to compete at the Chicago legion convention next summer.

The post executive committee has named H. R. White, M. Clifford Moyalhan and Thomas Hill to investigate the possibility of obtaining club rooms for legionnaires in the city.

The next Capital post meeting will be a social one to which all past members will be invited.

Vandals Active At Park School

Principal Bernice Skeen of Park grade school yesterday requested city police to watch for a group of older boys who have torn up a back stop used by the smaller children and have made a general nuisance of themselves about the school grounds. Names of suspected boys were given.

Must Lose Eye Or Life, Edict

Center of a case which is attracting unusual attention, two-year-old Helen Vasco of New York, is shown here with an infected eye which would cause her death in the near future unless it was removed. Her parents barricaded their home to keep the doctors away, and later, after the father had once said he would agree to the operation, the entire family disappeared.

MANY CRIMES ARE ADMITTED BY PAIR

DeLong and Spencer Faced By Several of Victims In Tacoma Lineup

TACOMA, April 17.—(AP)—Enough crimes to keep them in prison for the rest of their natural lives as habitual criminals, police said, were confessed here today by James De Long, 29, and Frank Butler, alias Spencer, 29, two of the 14 persons arrested in Tacoma and Portland last week in connection with a payroll hold-up in Tacoma.

The confessions were made after more than a dozen witnesses in recent northwest robberies and holdups had viewed the two men in the Pierce county jail. Besides De Long and Butler, three of the other suspects in custody were named by witnesses.

Crimes confessed by De Long and Butler were the \$4500 payroll holdup of P. S. O'Day about a month ago at American Lake, the Gerstmann Clothing store burglary at Puyallup, the Pirate Inn holdup, and burglary of the De Koven service station, authorities (Turn to page 8, col. 1)

THREE ARE KILLED AS TRAIN WRECKED

EMERSON, Ga., April 17.—(AP)—Three persons were killed and two injured tonight in the wreck of the Lamirco, fast Louisville and Nashville train, in the Altoona mountains 12 miles south of Cartersville, Ga.

The dead: D. A. Giles, 45, fireman of Etowah, Tenn. Two unidentified hoboes. G. W. Evans, of Atlanta, the engineer, was missing and trainmen believed he had been killed, but they could not find his body although the wreckage had been searched.

An unidentified hobo was critically hurt. Conductor L. C. Butchmecher of Knoxville, Tenn., said he had found no injured passengers.

Two or three cars followed the locomotive which turned over, but none of the Pullmans left the track. The fireman said he believed none of the passengers was injured.

Beer Isn't Mentioned at Council Meet; Drys Busy

Maneuverings yesterday of city aldermen who have not favored licensing the 3.3 per cent beer business in Salem bore fruit last night in the form of inaction, which spelled "flims" for the licensing bill first defeated seven to six two weeks ago. Beer was mentioned on the council floor during the hour-long session.

LOAN FOR CITY DOCK PROJECT WILL BE ASKED

Attorney is Instructed to Make Application for Funds From R.F.C.

Similar Proposal to Build Water System Waits; Plans in Making

The council last night cleared the way for immediate action toward obtaining an R. F. C. loan to finance construction of the proposed municipal dock and warehouse when it accepted the utilities committee's recommendation to have the city attorney instead of the mayor and recorder file the loan application. Under the resolution passed, City Attorney Kowitz is directed to proceed at once.

Specifications, estimates of cost and the plan of liquidating the loan are fully prepared so that as far as the city is concerned, there need be no delay in the loan. Alderman S. A. Hughes, chairman of the committee, said after the meeting. Mr. Hughes the past week spent considerable time conferring with Portland engineers concerning the project.

Loan of \$95,000 Embodied in Plan
The application will call for a loan of \$95,000, to be repaid by the city in 25 annual installments. Funds for these payments will be obtained through leasing the dock to Salem Navigation company. The company would be required to operate the dock and warehouse for the benefit of the public as well as for itself.

The utilities committee was unprepared to bring before the council the proposition of obtaining an R. F. C. loan for construction of a municipal water system. The matter is being handled by the committee and the city water board, of which Edward Rostein is president.

Vote on the bill to take from the city recorder the duties and \$32 salary of purchasing agent, in some quarters considered a slap at the recorder for failure to bring motorists to time for overtime parking and similar offenses, was deferred until the next meeting when Alderman Watson promised to report the bill out at that time. The promise resulted from a motion by Alderman Olson to give the bill to a special committee because it had not been brought out of the other committee.

The city's warrant books were cleared of \$14,495.22 when the council ordered canceled three unused warrants made out by Marion county for paving work done in the city in 1928. The county, it was explained, had since received a like amount from the state highway commission for paving of the highway through Salem.

A bill from the League of Oregon Cities for Salem's assessment of \$100 to pay expenses of the municipal service bureau lobby at the state legislature brought sharp criticism from Alderman Henry Vandover, who declared it a "worthless outlay." The council ordered the city attorney to outline at the next meeting the services the bureau has rendered the city.

Neighbors to Meet

CORVALLIS, Ore., April 17.—(AP)—Oregon members of Royal Neighbors of America will open their 11th annual convention here tomorrow. Mrs. Bertha McIntyre, head of the Corvallis camp, will preside at the opening ceremonies. Anna Stallsmith of Eugene is state supervisor.

The Day in Washington

THE DAY IN WASHINGTON (By the Associated Press)
House passed bill to permit president to declare arms embargoes.

Senate defeated proposal to add re-monetization of silver to farm relief bill.

Senate refused to reconsider 5 day work week bill previously passed.

Secretary Dern submitted to budget director tentative draft of program calling for reductions in enlisted and officer army personnel.

Several thousand children participated in Easter-Monday egg rolling on White House grounds.

Forty-second continental congress of Daughters of the American Revolution opened with plea from Mrs. Russell William Higgins, president general, to avoid "entangling alliances."

Supporters of Senator Long (Dem., La.) submitted petitions asking senate to disregard corruption charges in previous petitions of another faction.
