2000 From This State Will Get Work, Some Coming From Other States

(Continued from page 1)

The camps, feed the men and provide hospitalization, medical attention, sanitation and welfare work. The various forestry organizations of the state are to have charge of the men in the actual work.

Classes of Work

Many classes of work have been outlined but as yet nothing definite has been stated as to what will be allowed. It is quite likely that it will consist of road, trail, telephone, lookout and cabin construction, fire lines, hazard reduction such as snag cutting, slash disposal, clearing of highways, fire fighting, blister rust and various other branches of the work.

The army has also announced that the men in Oregon will be conditioned in this vicinity for conditioning. The camps so far chosen and the number of men which can be taken care of at one time is as follows: Fort Stevens 60, Vancouver 800 and Fort Lewis 2800.

As to the location of the camps and the number to be allotted to Oregon, nothing can be definitely stated, but plans are in the making to take care of many more than are contained in the Oregon allotment.

The work itself will not necessarily be confined to the federal lands in the state, but it is expected that it will be extended to both state and privately owned lands. However, it is expected that the first few camps will be placed on national forest lands.

Also plans are under way to coordinate the work between the private and federal lands wherever they are so located as to make this possible. Cronmiller has already designated a member of his staff to confer with the forest service in regard to this.

MANY CRIMES ARE ADMITTED BY PAIR

DRIVERS' LICENSE PRICE TO DOUBLE

Motor vehicle drivers licenses will sell for twice the present price after June 9, under a new law enacted by the 1933 legislature. The fee under the new enactment is \$1, as against 50 cents under the existing law.

Persons who obtain a renewal of their licenses before June 9 will not only pay 50 cents but will avoid a congestion of applicants, Hal E. Hoss, secretary of state, has announced.

The new motor vehicle law provides that all drivers' licenses issued prior to July 1, 1933, shall expire on September 1, and every two years thereafter, beginning June 30, 1935. This means that every operator carrying one of the old-type licenses must have it renewed before September.

Approximately 400,000 drivers will be affected by the new law.

Hoss said it would be well for all persons who contemplate taking the examination to obtain an Oregon motorist's manual. He said this could be obtained from state police, sheriffs, chiefs of police or by writing to the state department.

FOREST ARMY TO ACCEPT 126 HERE

(Continued from page 1)

B. Wilcox, announced that machinery for selection of the men will be set in motion immediately for this purpose. A series of six meetings in various parts of the state will be held later this week. They will be attended by county relief committees and representatives of the state committee and of the federal or state forestry departments.

The first of these meetings will be held at Corvallis Wednesday at 2:30 p. m., with relief committees from Marion, Lane, Benton, Lincoln, Polk and Linn counties in attendance.

State representatives will suggest to county committees that county health officers give applicants for enrollment preliminary physical examinations so that those selected by the counties may be reasonably certain of later passing army examinations. These are to be given before the men go into the woods.

As soon as the counties make their selections, they will be certified to the state committee, which will notify Major-General Malin Craig at the Presidio at San Francisco where and when the men may be examined by army officers.

Wilcox declared today that "conservation of men as well as conservation of forests is the purpose of the forestry corps."

The U. S.-Y. M. C. A. Employment bureau here has registered 676 men for work in the forest camps, it was announced yesterday. Of this number, however, many will be ineligible because of physical condition or lack of dependents for whom they are responsible. It is estimated 90 per cent of the applicants are single.

Clarence Noble Now Visitor in Interior China

Mr. and Mrs. Clarence W. Noble who started March 1 on a trip around the world, are in China, where they are visiting the couple to visit them in interior China, so the Nobles will probably spend a month in China instead of going on to Manila for a stay. They expect to go to Peiping and if conditions permit, go as far north as the Great wall.

From Shanghai they will sail for Europe on a North German Lloyd vessel.
