

BLACK MATTER MAY COME BEFORE JURY

Other Matters to be Taken Up Today by Polk County Investigators

DALLAS, April 20 — District Attorney Elmer Barnhart has issued a call for the Polk county grand jury to report for duty on Friday, April 21, to consider several matters. It is not definitely known whether the matter involving Hugh G. Black, former county clerk, will be considered Friday, but it is almost certain that it will be brought up before the grand jury adjourns again.

Floyd A. Rowell, auditor, completed his check of the special bank account carried by Black during his time in office, early last week. Members of the county court, District Attorney Barnhart, and Black met with the auditor last week and the complete report of the auditor has not been made public. It is understood that Black requested and was granted a few days to produce the shortage but no further remittance has been made to the treasurer.

The original admitted shortage was \$2057.74 of which \$440.74 was paid the county treasurer on March 28, 1933. It is understood that the auditor's check revealed further shortages which, with interest, made a total of nearly \$2500, leaving a balance of approximately \$2100 to be raised and turned over to the county.

Dayton Eggs Get Break in Alaska Mart

DAYTON, April 20 — Nineteen cases of eggs were prepared and evaporated at the Dayton Evaporating and Packing company plant in Dayton Tuesday, employing three men and nine women, to fill an order received by the manager, D. A. Snyder. The low price of eggs and the high tariff on foreign eggs have revived the former demand by the Alaskan trade.

The process is interesting, one man keeps busy breaking the eggs which are beaten with an electric egg beater until very light then they are poured in trays to the depth of about one inch and processed for about eight hours, requiring three dozen to make one case of the finished product which is pulverized very fine. Water is added to the egg powder when preparing it for various uses.

The evaporator has operated intermittently all winter with the various vegetables used in the Gold Nugget brand evaporated vegetables, all produced in Oregon. Cavender and Marlon Sharpe.
