The first week night of music week has been given over to informal musical "at homes" at which time groups will gather and enjoy music. No need for artists in the assemblage, but merely an excellent radio program enjoyed in the environment of the home will be sufficient to fill the aim of the musical "at home."

The affair is being given as a benefit, the proceeds from which will be turned over to the music departments of the school for much needed material. The work of music week in Salem has been under the direction of a large, busily working committee headed by Mrs. Walter A. Denton.
