DAVIS LAND DEEDED TO HOME FOR NEEDY

Will Statements Point to Intended use of 100 Acres Near Turner

The 100 acres of fine land two miles south of Turner and the five acres in Turner together with the splendid fireproof building of the former Turner home, all of which were attempted to be sold some time ago to satisfy a judgment are now found to have been deeded in perpetual trust for the Home for the Needy by Mrs. Cornelia A. Davis, deceased. The wording is the same as was used in her will, "Home for the Needy."

The fact that the original trustee, the Eugene Bible university, failed to continue the operation and protection of the trust does not terminate it, for in Oregon a trust cannot fail by lack of a trustee. The court may appoint a trustee when one is needed.

Rev. Ellmore J. Gilstrap, pastor of Turner Christian church, has labored to hold these properties together to their original purpose in justice court yesterday and was fined \$10 and costs. Commitment was issued but he paid the fine at sheriff's office. Rogers was arrested at St. Paul.

Appoint Director—At request of patrons in the district, Mrs. Mary L. Fulkerson has appointed a school director for Marion to fill the unexpired term of A. F. J. Lafky, who has moved from the district. The new director is R. J. Smith.

Commission Will Discuss Federal Road Proposals

The state highway commission will meet in Portland Friday for the purpose of considering four proposals under which the state hopes to obtain federal funds for highway and bridge construction. The proposals were prepared by R. H. Baldeck, state highway engineer.

The latest proposal contemplates the expenditure of approximately \$25,000,000 of federal funds in Oregon. This program includes new highway and bridge construction, toll projects and forest roads. Other proposals range as low as \$3,000,000.

STUDNICK BUYS FARM
QUEENER, May 15.—Frank Studnick has bought the Thomas estate, next to Ben Cutler's. It is said he is going to build a house on the place. A family from Salem has rented the Sneed property.

Progress in aviation locally and in general was discussed at the chamber of commerce luncheon Monday noon by Lee U. Eyerly, president of the Eyerly Aircraft corporation, and in charge of the municipal airport, and his chief pilot, Lieut. W. A. Hazelwood.

Eyerly sketched his own career in aviation, told of the fine support business men, the chamber of commerce and the American Legion had given in making possible his own efforts here; told of the various departments operated at the airport, and of his own novelty inventions.

He pointed to the fact that the airport here is "going and going strong" when nearly every other similar organization is bankrupt. The acrobatics which Eyerly and his crew have been building for more than a year have brought in \$50,000 outside money. Forty-nine of those were sold last year. A new amusement plane, which Eyerly believes will go over even better than the acrobatic, is the "loop-o-plane," which will accommodate four persons and as the name indicates, performs an air loop.

Flying Safety Increases
Hazelwood told of the progress in speed and safety in general flying, pointed to new strides in experimentation now going on to make blind landings by aid of the radio; and of the robot pilot, a new development in aviation. The newest developments come at almost prohibitive prices right now, but nevertheless mark great forward strides, he said. People are becoming more and more air-minded, he said in stating that 500,000 persons traveled by-air last year.

Miss Ann Bohrer, airport hostess, and Frank Hrabetz, superintendent of shops were special guests at the luncheon.

THOUSANDS agree! This crispy cereal is the grandest-tasting breakfast dish they know! Moreover, Post's Bran Flakes acts as precaution against constipation due to lack of bulk in the diet; a dangerous condition, often unsuspected, that may result in listlessness, lack of ambition, ill health.

prevent intestinal sluggishness and to insure normal elimination. It is also rich in phosphorus, iron and Vitamin B.

So adopt this proven program: Plenty of exercise—water to drink between meals—fresh fruits and vegetables in the diet. And a generous daily helping of Post's Bran Flakes.

You'll love it—plain or with fruit or berries. Start now—and see how it helps to keep you regular! A product of General Foods.

Henry Ford

May 9, 1933

A great thing has occurred amongst us. We have made a complete turnaround, and at last America's face is toward the future.

Three years—1929 to 1932—we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward—through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method—new political and financial machinery—to pull us out the way we are going—forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only—the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.
