## PATCHWORK QUILT PATTERN

Star Flowers No. 425

By Laura Wheeler  
Eight-point star flowers make an effective quilt. Stars are one of the motifs that have been used in all variations in quilt designs, from the elaborate Star of Bethlehem to the simple six-point star. In this Star Flowers pattern, the stars are made into a flower form by the addition of an applique center. Their repetition makes a striking all-over pattern. The diamonds that form the star flowers are joined as for a star and the round patch is sewn over the center. The diamonds are of a size that are easily handled and, joined with the other simple patches, form an attractive block.

The pattern comes to you with complete simple instructions for

cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

Send 10c for a pattern for this design to the Oregon Statesman Needlecraft Dept., 82 Eighth Avenue, New York City.
