

MOONEY PLANS APPEAL, AVERS

Directed Acquittal in new Trial to be Made Basis For Further Step

(Continued from page 1)

In vain with Superior Judge Louis H. Ward for a full trial.

After intimating he had no alternative but to direct an acquittal under the circumstances, Judge Ward withheld the instructions to the jury while Mooney pleaded on and while William Murphy, assistant district attorney, argued that the state had no case and could not prosecute. It was 12:36 p. m. (PST) when Judge Ward turned to the jury and recommended the instructed verdict.

The jury retired to deliberate but it was only a formality, two minutes later it returned, reported the verdict as prepared, and was discharged. Mooney, who previously had announced he would immediately ask Governor James Holp to pardon him, was whisked out of the court room and back to San Quentin prison, where he is serving a life sentence on a conviction of a like charge 17 years ago. Mooney now stands convicted in the eyes of the law on one murder charge and acquitted of another.

Frank P. Walsh and Leo A. Gallagher, his attorneys, went to San Quentin immediately expecting to confer with him and map a course of action. Previously they had said the present case would be used as a basis for a pardon plea to Governor Holp.

"I am very happy," said Mooney, "in spite of the fact that I could not verbally deny my guilt."

Mrs. Mary Mooney, 83-year-old mother of the prisoner, likewise expressed pleasure.

The mighty slugger of the New York Yankees is here shown amid an enthusiastic group composed of the Pascale (N. J.) orphan boys who recently saved an Erie R. R. express from destruction by flagging it to a stop.

retain the school classes, as have also B. F. Irvine, Paul R. Kelly and Marshall N. Dana of Portland. The Portland chamber of commerce has wired D. W. B. Dodson, now in Washington, D. C., to take the matter up with Congressman Pierce and Martin. Telegrams protesting the closing and urging that no definite action be taken until a full survey is made, were also sent to Louis Douglas, director of the budget, and John Cillier, commissioner of Indian affairs.

Governor Meier was also urged to add his voice to the protest. Chief ground upon which the massed effort is based is that the Chemawa school has reached an outstanding place and need in its vocational work among the Indian youths.

U. S. PEACE POLICY OUTLINED BY DAVIS

GENEVA, May 24—(AP)—The anti-war machinery which the United States is helping to construct took definite form in the disarmament conference today when Norman H. Davis announced the Washington government was prepared to confer with other powers whenever the Briand Kellogg pact has been violated.

If it is possible to identify the aggressor, Davis, the American ambassador-at-large, said, the United States government undertakes to refrain from any action likely to defeat the concerted efforts of other nations to deal with the offending state.

The United States, moreover, he announced, will not give protection to any American citizen who may engage in activities tending to defeat the international peace efforts.

The United States is ready to incorporate this doctrine in a unilateral declaration, he said.

and sent to newspapers and credit bureaus, before 8 o'clock in the morning and after 5 in the evening. She testified that she prepared these reports during office hours and that she received no additional compensation for this work. She claimed that Black also told her to tell the jury that she received the money for preparing these service reports but that she had declined to do so.

Several other witnesses were called during the day to identify documents which were introduced as evidence and to tell of transactions with the clerk's office.

District Attorney Barnhart took the stand and was questioned by Mr. Tongue regarding Black's appearance before the grand jury in 1932. One feature of Barnhart's testimony was the identifying of a check made out for cash which was cashed and the currency, amounting to \$200, turned over to him and later deposited in the clerk's office. He produced a receipt signed by Lynn Black, former deputy clerk, showing that the turn-over had been made.

Carl Graves, present county clerk, last witness today, told of receiving \$538.00 from Black when he took over the office in January of 1933. He stated that at that time he understood that this was all the money belonging to the county that Black had and did not know of the special account in the bank.

It looks as if Seaman Tom Watson, British challenger for the world's featherweight title, is enjoying a private workout. The Kid took the decision on points.

JUDGE LOUDERBACK WINS VINDICATION

WASHINGTON, May 24.—Nine days of trial before the senate brought complete vindication today to Federal Judge Harold Louderback on five charges by the house of representatives that he had irregularly handled receivership cases in his court.

On only one of the five charges—the last—was the vote of the majority of the senate cast for conviction. On this charge, 45 voted guilty and 34 not guilty. A two-thirds majority was required to convict him.

Six republicans, 33 democrats and Henrik Shipstead, Minnesota farmer-laborer member, voted on that ballot to sustain the house charge, while 23 republican and 12 democrats voted for acquittal.

All the charges involved the appointment of receivers and attorneys for them and the fees allowed by the judge.

child to death and tossed her tiny body into a swamp.

The body of the child, Mary Carolyn James, was found yesterday in a swamp near her home. At first it was believed the girl had toppled into the water accidentally and was drowned.

Examination of the body by Deputy Coroner J. Robert Doody disclosed the child had been struck in the face and her head crushed by a rock.

The child was the daughter of Mr. and Mrs. Arthur James.

MITCHELL'S CLAIM OF LOSS IS CITED

NEW YORK, May 24—(AP)—Two years after Charles E. Mitchell sold 15,300 shares of bank stock to his wife, Gerard Swope testified in federal court today, the former banker went before the National City company's directors to suggest reimbursement for his loss.

Swope, president of the General Electric company and a director of both the National City bank and the National City company, was on the stand at Mitchell's trial on charges of income tax evasion.

The former chairman of the National City bank, Swope said, made no specific request, but presented his claim in "broad terms."

After his testimony, United States District Attorney George Z. Medaille turned to the second allegation against Mitchell—that he pretended in 1930 to sell to W. D. Thornton \$500 shares of Anaconda stock to show a loss on his income tax return.

HOLMAN REFUSES TO SIGN MINUTES

Rufus C. Holman, state treasurer, yesterday refused to affix his signature to the minutes of a recent meeting of the state board of control, at which the salary of William Elmsig, state purchasing agent, was fixed at \$4000. The minutes were returned to Elmsig for correction.

Holman declared that the wording of the minutes that the Elmsig's salary shall be \$4000 a year from and after March 15, the date on which the salary reduction law became effective, for the remainder of the biennium, would two years. He asked that the minutes be corrected so that Elmsig shall be paid at the rate of one-twelfth of \$4000 for each month he is employed.

The motion to reduce Elmsig's salary from \$5000 to \$4000 a year was made by Hal E. Hoss, secretary of state, Holman announced at that time that he considered \$3600 a year adequate, but later joined with Governor Meier and Secretary of State Hoss in supporting the larger salary.

A feature of the sessions will be a no decision debate on the question: "Resolved, that the service given by librarians should show curtailment proportionate to reduced funds."

Thunder and Rain Follow Moon Change

The moon changed and, sure enough as the amateur prognosticators promised, the weather changed. And people who thought any change must be for the better, began to doubt.

Wednesday, though partly cloudy, was one of the balmy days of the year; but that night and early this morning brought as lively a thunderstorm as the Salem vicinity has witnessed in many years, with rain coming down in torrents and lightning illuminating all outdoors every few moments.

Weather forecasts did not mention such an event, but they predicted unsettled conditions with showers for today.

JOHNSON REFUSES CONFERENCE ROLE

WASHINGTON, May 24—(AP)—President Roosevelt plunged deeply today into the troubled far eastern situation, but took time also to name Representative Sam D. McReynolds of Tennessee to the London conference delegation and receive from Senator Hiram W. Johnson of California a declaration to serve on that body.

After opening a series of White House conversations with a group of distinguished Japanese officials, the president conferred at his office with Henry L. Stimson, the Hoover secretary of state, whose diplomacy was featured by proclamation of a doctrine of non-recognition of territory gained by force.

The doctrine was applied specifically in connection with the Japanese advance into Manchuria and its establishment there of a new state under the name of Manchukuo. The Japanese are pressing for recognition of this state by the American government and the rest of the world.

The United States, on the other hand, is using its influence in friendly fashion to bring peace to the far east and swing Japan into line on the British arms reduction proposal at Geneva.
