WASHINGTON, May 25-(AP) -House leaders decided tonight that the bill to set up a new federal employment service would be taken up as soon as pending bills on the president's emergency program have been disposed of, possibly next week.

It is the same bill, virtually, as that passed by the last congress and pocket-vetoed by President Hoover.

Secretary Perkins in a letter to Representative Peyser (D-NY). co-author with Senator Wagner (D-NY) today said that without such a system as the bill would set up "chaos in the labor market is inevitable."

The bill provides for cooperation among the states on employment services through a federal system. It would appropriate \$1,400,000 for this work the first year and \$4,000,000 for each fiscal year through that ending June 30, 1938. The new system would absorb the employment agency now operated by the labor department.
