## DEVERS HAS BRIDGE APPLICATION READY

PORTLAND, Ore., May 25. — (AP)—J. M. Devers, representing the Oregon state highway commission, will file an application for the construction of five bridges on the Oregon Coast highway to a total cost of \$3,400,000, as soon as the public works bill now before congress is passed and an administrator appointed. It was stated tonight in a dispatch to the Oregonian from Washington, D. C. Devers is now at the capital to further this state's interests in the bill.

The application for the bridges will be made under a provision permitting the president to make a loan of 70 per cent and a grant of 30 per cent, according to the dispatch.

In the interest of speeding construction, Senator McNary has introduced bills authorizing the erection of the bridges, congressional action being necessary because the bridges cross navigable streams. The dispatch said McNary is confident authority for such construction will be given before the present congressional session is adjourned.

Devers today wired C. H. Mc-

Cullough, state bridge engineer, for data on how soon contracts could be let and the number of men that would be employed directly and indirectly on the bridges.
