The executive committee was instructed to negotiate with Jacques Gershkovich for serving as conductor for the 1933-34 season.

COUNTY TO BUILD ONE MARKET ROAD

Within the first ten days of this month, Marion county will begin the completion of its market road in the South Silver Creek Falls district, the aim of the county court being to complete this new market road within two months. This will be the only major highway construction job undertaken by the county this year and this road will be a carry-over from the uncompleted projects of 1932.

Hedda Swart, county engineer, will be in charge of the work. Swart said yesterday that the number of men he would hire would depend upon the way the road work went and the number of men that could be used efficiently. Portions of all the remaining six or seven miles of roads have undergone some construction.
