# Police Balked; All Leads Fail In Amnesia Case

Falling to date in their efforts to establish the identity of the woman amnesia victim who came to the Y. W. C. A. here a week ago Sunday, city police have transferred her from Deaconess hospital to the state hospital where she is under observation. Yesterday Grants Pass officials replied to local officers' queries, saying the woman was not known in that city. Clues pointing toward Eugene and Seattle also have petered out.

# 100 Men to Work, Silver Falls Road

As many as 100 men will be employed on construction of the South Silver Creek falls road, members of the county court said yesterday. Work is to begin this week under direction of Hedda Swart, county engineer. The men will all be employed from the area through which the road runs. The road, to be completed this year, was begun as a market road project last year by the county. Its completion was delayed by disagreement with property owners over the right of way.

# ELLIS ENCOURAGED ABOUT RIVER PLANS

## Outlook Good for \$95,000 Dock Project; Engineer Revising Report

While refusing to predict the decision of the United States army board of engineers on the Willamette valley's plea for \$95,000,000 of federal funds to canalize the river as far as Salem, William P. Ellis reported himself as "encouraged" by the response given by the board to the canalization project's outline, delivered by Ellis recently in Washington. The local attorney returned Sunday and spoke at the chamber of commerce luncheon Monday noon.

Ellis said that ordinarily an adverse report by the regional engineer—made in this case—was controlling with the board at Washington. From the expressed attitude of several board members and the fact that the report made by the engineer at San Francisco had been sent back for revision, Ellis opined there was a good chance the river project would be approved. He warned against too great optimism by the chamber here and said that the board's decision could never be predicted accurately in advance.

Further improvement of the river to provide cheap water transportation is imperative for the continued development of industries in the Willamette valley, the speaker said. Increasing competition between industries, means only the low-cost producers can survive and low transportation is imperative for low-cost. Ellis pointed out.

# Three Struck by Cars but None Seriously Hurt

Three persons were struck by automobiles in Salem over the weekend but none was seriously injured, according to reports to the police. Yesterday John Marr, city dog catcher, was knocked down by a truck driven by Lawrence C. Orwig, 1970 North 18th street, on South Commercial. Delbert Patterson, 445 South 16th street, reported that his car

H. Wiehe, 637 North Front, and Tommy Ogura, Brooks route one, collided at Liberty and Marion streets yesterday but no one was hurt.

# Half of Bankers In "Who's Who" Church Members

More than half of 1105 bankers listed in the current issue of Who's Who in America are church members, a recent study by Rosalind A. VanWinkle, graduate assistant at Willamette university, reveals. Miss VanWinkle listed 655 of the bankers as members of some religious denomination. The Episcopalian church had the highest percentage of bankers listed in the directory, 190 professing membership in that denomination. The Presbyterian church claimed 27 per cent of the listed bankers with 180 members, and the Methodist church 75 bankers listed, or 11 per cent. Other denominations, as preferences for the bankers, were in the following order: Congregationalists 58; Baptists 42; Catholic 28, and Unitarian 28.

# DISPUTE OVER HOP RANCH IS IN COURT

## O'Neills ask Receiver for Property Involved in Accounting Plea

Demand that a receiver be appointed to have charge of the 1933 operations of the Sod hop ranch, 90-acre place in the Clear Lake district, was made in circuit court yesterday in a complaint filed by C. B. O'Neill and W. L. O'Neill against Robin D. Day. Plaintiffs allege that they are each one-third owners of the ranch under a partnership agreement in which the defendant owns one-third.

The O'Neills also ask that Day be restrained from selling the ranch while an accounting is being made.  
A partnership agreement was made in 1931, they assert, in which C. B. O'Neill was to keep the books, W. L. O'Neill was to run the ranch and Day was to sign the checks and have other supervisory control over the business. The ranch was subject to a \$20,000 debt which was to be treated as a first claim until it was paid.

The O'Neills say Day has not offered an accounting of the books and allege there has been some variation in the amount of advances made by each of the partners.  
The plaintiffs allege that the estimated value of the 1933 hop crop from the ranch is \$25,000. Last week Day sued C. B. O'Neill on a \$1200 note due from the latter and asked that an attachment be placed on the ranch.

# County's Share In O-C Fight is \$27.50, Reported

Marion county's share in a \$2500 expense fund being raised to preserve for 18 counties of Oregon the Oregon & California tax refunds is only \$27.50, county officials said yesterday. The expense is being pro-rated among 18 counties on the basis of federal lands in the county. Some counties will have a heavy share of the expense, Josephine's ratio running to \$500.  
Guy Gordon, district attorney for Douglas county, will take the lead in presenting the Oregon counties claims at Washington. He has been authorized to go east if it seems necessary that he present the counties' claims there. Marion county's annual share in Oregon & California refunds has been nearly \$7000.

**WOMEN'S CONTRIBUTION TO THE MOTOR CAR**

There is some doubt that people care to hear very much about what goes on under the hoods of their cars.  
The driver knows that "driving qualities" are not accidental; they are put there. How the manufacturer creates or evolves those results may not interest him. He judges entirely by the results he gets in driving.  
Well, it is not essential to talk "shop"; let us talk Results. Smoothness. Drive the Ford V-8 and you will find that the engine runs with surpassing smoothness, due to its design and the extra precise methods of its manufacture.  
Power. There it is, 75 horsepower (we could say 80) at the drive-shaft for the driver's use. With less weight to pull around, the mettle of this car—its life-like response—is rather remarkable.  
Economy. Our V-8 develops more power on a gallon of gasoline than any car we have made. Mileage is partly a matter of individual driving, but under average conditions the Ford V-8 does 17 to 20 miles a gallon. Of course, car economy is not only a matter of fuel. Ford V-8 has that too, but it is also economical in the complete sense—initial cost, operation, maintenance.  
Appearance. This is woman's contribution. The motor car must not only be useful, but also good-looking. View the Ford V-8 and you will not need our comment on its fine appearance.  
Comfort. This also is woman's concern. In 30 years she changed the motor car from a wagon to a coach. Comfort is a quality made up of numerous ingredients. There is no comfort without a quiet, smooth-running engine. We have all the other ingredients too—color, good taste, quality, ease, safety, roominess and convenience.
