

FEDERAL DOLES TO END, BELIEF

State Must Match any new Amount, Indicated by Administrator

(Continued from page 1)

Special taxes were also voted to provide for the relief appropriation. The legislature cannot vote bonds, in excess of \$50,000 except by referendum approval of the citizens, or to suppress invasion or insurrection.

Summertime increase in business and agriculture will presumably see this state through until fall, with the county courts, however, being called on for a much heavier contribution for needy.

Unless marked and continuing business improvement comes, by fall the state will be faced squarely with a relief program in which Uncle Sam will no longer be the rich uncle, a role played for the last eight months. Wilcox pointed out the need of state appropriations for relief at the 1932 session but legislators, intent on budget reduction, let the matter ride.

BRANCH BANKS ARE WANTED BY CITIES

(Continued from page 1)

Branch banking in Oregon is now possible under recently enacted laws. The 1933 legislature made such banking possible; the new Glass-Steagall bank bill, awaiting presidential approval, gives federal approval to such branch banking.

Portland banks yesterday admitted they were looking at several communities in the state with the view of establishing branches. The Dalles, Pendleton and Albany were points talked.

The United States National bank here can become a branch of the parent institution in Portland under the new laws. No official announcement has been

made concerning the bank's policy, although its Portland officials stated in a hearing at the legislature last winter that all its group of banks would probably be made into branches once appropriate legislation was passed.

Federal laws have heretofore prohibited branch banking in cities and the United States and the First National banks in Portland promptly made their Portland banks into branches once state authority was granted.

BAKER LAWYERS PAY TRIBUTE TO LEVENS

Tribute to the memory of the late William S. Levens, assistant attorney general, who died in Eugene last month, was expressed in resolutions adopted by the bar association of Baker county this week. Levens lived in Baker before removing to Salem and for 12 years was district attorney there.

William Smith, veteran Baker attorney and former circuit judge, said:

"No one ever endeared himself to the people of Baker county by kindly disposition, cheerfulness and interest in his work and his fellow attorneys than did Billy Levens. He was always cheerful in defeat and never gloated over victory."

"He was a credit to the bar of the state of Oregon. He was willing and would attempt anything along the line of duty."

AKRON, O., June 14.—(AP)—Returning from her fourth and longest trial cruise, a jaunt over the midwest and lower lakes region which lasted nearly 49 hours, the huge airship Macon was slipped into her dock at dusk tonight.

The cruise and the tests made during it were pronounced "successful" and "satisfactory" by her commander, Captain Alger H. Dresel, by Commander S. M. Kraus, of the navy board of inspection and survey, and by Dr. Karl Arnstein, chief engineer of the builders, the Goodyear-Zeppelin corporation.

Asked concerning a wireless message reported to have been received late yesterday by a ground station at Frankfort, Mich., to the effect that one of the ship's rudders was disabled, Captain Dresel said "the report was in error."

Dr. Arnstein declared, "We don't know anything about it. There was no trouble aboard throughout the flight."

Klamath-Digger Feud Hinted in Fatal Stabbing

KLAMATH FALLS, Ore., June 14.—(AP)—The rise of a tribal war between the California digger Indians and the Klamaths was hinted today with the discovery of the body of Avia Murdock, 30, California Indian, who had been stabbed to death in a cabin near Williams river.

Benjamin Tuper, 49, member of the Klamath tribe and father-in-law of the slain man, was arrested on a murder charge. Police said a feud existed between the two men, growing out of an inter-tribal marriage several weeks ago. Murdock married Josephine Tuper, Benjamin's daughter.

Willamette Choir Support Solicited

Business men in the city were being approached this week by C. M. Duncan, field agent for Willamette university, with a view to their raising a portion of \$2000 needed to guarantee the appearance of the Willamette university Philharmonic choir at the world's fair in Chicago. In Salem will underwrite a portion of the expense. Duncan will seek the remainder of the money in Portland.

The choir has booked more than 29 concerts along its route to the fair. These will pay a portion of the board and lodging cost for the choir. A guarantee is needed to assure the choir that its bus fare will be covered before the trip starts.

If money can be raised, Professor Cameron Marshall expects the choir will start east within a fortnight, the entire organization going by bus.

Lost Ugly Fat

Her Husband Says She Looks Five Years Younger!

There is a certain weight which every woman looks for—neither too heavy nor too light—neither too fat nor too thin. We find many doctors, theatrical producers and husbands! all agreed upon this point: "My husband says I look five years younger" since I started using Kruschen salts. I started using them in July. I lost 17 lbs.—I had lost weight steadily since then, and am now 150 lbs.—my normal weight. Moreover, I feel brighter and more energetic in every way.

"I have inquired of my dressmaker my measurements which in August last were bust 40, hips 43 1/2, waist 33 1/2 inches which is normal for my height, which is 5 ft. 8 in. My age is 29. My husband is a very severe critic. He says I look five years younger. There is no other reason for my loss of weight except Kruschen as I do not take any particular diet."

(Mrs. S. R., London, England.)

A bottle of Kruschen salts will last four weeks costs but a trifle—take as directed every morning. When the jar is empty, get on the scales and see how many pounds you have lost. Attention to diet will help—cut down on pastry and fatty meats; go light on potatoes, butter and cream.

But remember this: to take off fat harmlessly and SAFELY be sure for your health's sake that you ask for and get Kruschen salts. Get them at any drugstore in the world as if the result one bottle brings do not delight you—do not joyfully satisfy you—why money back—adv.

We claim STANDARD GASOLINE is unsurpassed in ALL qualities—

THE AMERICAN AUTOMOBILE ASSOCIATION CONTEST BOARD will decide—

If Standard Gasoline is unsurpassed in all qualities—as we claim it is—it should be demonstrable in fact.

Accordingly, on April 10, 1933, the Standard Oil Company of California wrote to Captain E. V. Rickenbacker, Chairman, Contest Board, American Automobile Association, saying—"We believe and claim Standard Gasoline is unsurpassed in all qualities—starting, acceleration, mileage, and anti-knock performance.... May we ask, therefore, that your Contest Board be authorized to conduct the necessary tests to verify or disprove our claims? It is understood that the report of your findings shall be made public."

On April 21, 1933, Captain Rickenbacker replied, saying—"That Standard Gasoline shall be submitted to comparative road performance tests under the scientific observation of Members of our Contest Board. We welcome this opportunity...."

Watch for the results. You may be sure that the independent tests conducted by the AAA Contest Board will be thoroughly scientific and impartial.
