

4-L PROTESTED AS MEET HELD

"Company Union" Charge is Made by Labor Council; Ruegnitz Denies

(Continued from page 1)

northwest, saying that "it does not truly represent the working man and is not in accord with the industrial recovery act," more than 1000 lumber workers met here tonight.

The meeting was called to obtain new members in the United Wood Workers association and to obtain signatures to a petition of protest to be sent Secretary of Labor Frances Perkins. Representatives of the American Federation of Labor addressed them.

G. O. Young, state A. F. of L. organizer, urged the men to form their own organization and affiliate with the American Federation. He described the 4-L as a "company union" in which he said wood workers were not "truly represented."

HEAT CENTERED IN MISSISSIPPI AREA

(By the Associated Press)

The June heat was settled with sizzling intensity on the right bank of the Mississippi river and part of the Atlantic seaboard Thursday, more than making up for relief that came with cooling showers or breezes to other parts of the country.

A group of states including Oklahoma, Texas, Kansas, Iowa, Nebraska, and Missouri comprised one of the "heat belts."

A portion of the Atlantic seaboard was uncomfortable. It was 98 at Washington and 94 at Baltimore.

Except for those two sections, reports generally were of temperatures several degrees lower than for several days. In the states surrounding the Great Lakes, including Illinois, Wisconsin, and Minnesota, showers and lower temperatures halted crop damage which experts said was serious.

A survey indicated the death toll from the four day heat wave had passed 20.

One Scottsboro Defendant Gets Another Chance

ATHENS, Ala., June 22—(AP)—Haywood Patterson, one of nine negro defendants in the Scottsboro case, was granted a new trial today by an Alabama trial court—the same one that sentenced him to death April 9 when he was convicted of assaulting a white girl hobo.

Judge James E. Horton set aside Patterson's conviction on contention the testimony was not corroborated and "bears on its face indications of improbability and is contradicted by other evidence."

Dance! LADIES FREE!

Recognition For Soviets Now Advised

(Copyright 1933, the Associated Press)

NEW YORK, June 22—(AP)—Colonel Frederick Pope, just returned from a quasi-official visit to Russia, advised the Roosevelt administration today to dispatch an unofficial representative without delay to the U. S. S. R.

Recognition should follow within a year or thereabouts, Colonel Pope reported, dependent upon the satisfactory settlement of propaganda and other differences.

The status of such an envoy should be similar to that of Boris Svislyk, soviet representative in Washington.

Colonel Pope, president of the Nitrogen Engineering corporation and an executive of the American Cyanamid corporation, discussed all phases of the recognition question with the soviet officials, it was learned, on his latest business trip to Russia.

Before he left the United States, the engineer spent several hours in conference with administration officials.

It was understood one of Colonel Pope's recommendations against immediate recognition is that it would militate strongly against a free hand for America in the current far east situation.

DYNAMITE BOMB IS THREAT TO SOLON

WATCHUNG, N. J., June 22.—(AP)—A 20-pound dynamite bomb was found today attached to the motor of an automobile belonging to Representative Charles A. Eaton, of the fifth congressional district.

An alert employe frustrated the apparent attempt at assassination. Joseph Balent heard a noise in the garage. He found a piece of wire hanging from the engine of one of the automobiles usually used by the representative. This led to a tube, 12 inches long and 5 inches wide, fastened to the ignition. Balent doused the tube in a bucket of water.

Had the bomb exploded against the starting button, an explosion would have resulted.

At the Du Pont Powder plant at nearby Pompton Lakes, experts said the maker of the bomb was no novice.

Representative Eaton, considered an expert on industrial relations and a cousin of Cyrus Eaton, Cleveland financier, said he knew of no one who might attempt to kill him.

Two of Youths In Reformatory Escape Caught

MERIDIAN, Tex., June 22—(AP)—Spurred by the capture of two of the four youths who escaped from the Gatesville reformatory after the axe killing of W. J. Leonard, reformatory blacksmith, officers of two counties sent their blood-hounds over a wide area today in hope of quickly capturing the others.

James Anderson and Clarence Raines were cornered in the rough country 12 miles east of Meridian, shortly before noon. Blood-hounds ran them down and tore at their clothing before the posse could catch up and call them off.

Prince Mdivani And Bride Start On Honeymoon

PARIS, June 22—(AP)—Prince Alexis Mdivani of Russian Georgia and the former Barbara Woolworth Hutton left tonight on a honeymoon trip to Italy after a religious wedding in the exotic byzantine splendor of the candlelit, flower banked Russian cathedral of Paris.

Crowds outside were so dense they broke police lines and jostled Barbara, rumpling her expensive bridal costume, as she left the church. Scattered fights broke out in the crowd before the service and 800 persons, who managed to enter, pressed close to the bridal couple during the ceremony. All stood as there are no seats in an orthodox church.

BACK SCHOOL TAXES TOTAL \$293,731.12

Would Clear all Warrants And Bonds of District If Paid up, Found

Salem school district could clear itself of all debt and have about a \$15,500 cash balance if it could collect all taxes now due it and the approximately \$29,000 payable from the county tuition fund, figures compiled by the clerk yesterday reveal.

Accumulating since 1924, school tax delinquency in this district now totals \$293,731.12. The district had \$197,674.96 in warrants marked "not paid for want of funds," \$110,000 in bonds and a \$500 note outstanding June 19, end of the school year. Its indebtedness at that time amounts to \$398,174.96.

The last several months have brought to the district \$2900 from the 1930 delinquencies and approximately \$11,000 from the 1931 roll. Delinquencies by years are as follows:

1924	\$ 280.55
1925	1,647.00
1926	2,273.37
1927	3,048.53
1928	4,463.52
1929	9,494.41
1930	33,808.22
1931	68,158.95
1932	170,642.10
TOTAL	\$293,731.12

DREDGING OF RIVER HERE STARTS SOON

PORTLAND, Ore., June 22—(AP)—The district engineer's office here announced today that the annual maintenance dredging in the Willamette river between Salem and Newberg, a distance of about 35 miles, will be started next Monday with the government dredge Monticello and a hired bucket dredge owned by the Pacific Building Materials company.

Because of high water, it was announced, the locks at Oregon City will probably not be closed to navigation for modification until July 15, two weeks later than originally planned. When the water recedes to normal, the floor of No. 1 lock will be deepened four feet to conform with the depth of the new channel being cut through Clackamas rapids, a mile below. The work will require closing of the locks for 60 days.

The channel between Oregon City and Salem is annually reworked to 3 1/2 feet to permit the navigation of shallow draft boats. Engineers reported the river below Newberg is in good condition, but said two months' dredging costing about \$20,000 will be required above Newberg.

Cuban Junta in N. Y. Dissolved; Peace in Offing

NEW YORK, June 22—(AP)—The Cuban revolutionary Junta established nearly a year ago to create American sentiment in favor of a governmental change in Havana was virtually dissolved today as its president, Dr. Carlos de la Torre, announced its adjournment sine die with full liberty of action restored to its members.

The adjournment was to permit those members of the Junta who so desire, to join with opposition groups in Havana which have accepted a proposal to conciliate differences between President Machado and his opponents.

Three Killed in Airplane Crash Following Fire

COUNCIL BLUFFS, Ia., June 22—(AP)—Three Council Bluffs men were killed today when a plane caught fire and crashed on a farm near Dumfries.

The dead were Richard Mason, 21, pilot; James Hitchcock, junior, fire captain, and Charles Fires, mechanic. They were returning from a baseball game at Macedonia.

Mason, it was said here, received his transport license about a month ago.

The Call Board

By OLIVE M. DOAK

THE ELSINORE Today—Wheeler and Woolsey in "Diplomaniacs."

THE GRAND Today—Tim McCoy in "Fighting for Justice."

HOLLYWOOD Today—Tala Birell and Melvyn Douglas in "Nagana."

Bert Wheeler and Robert Woolsey, popular stage and screen comedians and co-stars of more than ten screen comedy successes have rejoined RKO Radio Pictures, the company with which they made their screen debut. This duo came to the screen direct from their success in Ziegfeld's stage presentation "Rio Rita," eventually winning world-wide fame for their comic antics.

The pair, who have been together for more than ten years, starring in vaudeville and several Ziegfeld musical extravaganzas, now star in "Diplomaniacs," an original talking, singing and dancing comedy now showing at the Elsinore.

Great Lakes Linked with Mexico Gulf

CHICAGO, June 22—(AP)—The joining of the Great Lakes with the Gulf of Mexico 1,000 miles away by a \$102,000,000 inland water way was completed officially today.

Half a dozen squat, unpretentious freight barges were pushed up the Chicago river, a stream made to flow backward by man's engineering genius, and entered Lake Michigan.

It was the first cargo of freight, enough of it to fill 60 railroad cars, to arrive in the northern lake waters from the southern states and from foreign ports via the waterway.

Officialdom of the federal government, of a score of cities, and of a dozen Mississippi valley states greeted the barges from the deck of a gunboat.

They, among them Secretary of War George H. Dern, halted the opening of the waterway as placing the landlocked midwest on a closer transportation parity with the coast seaports and as providing industrial stimulus for the entire nation.

The waterway proper extends 96 miles from Lake Michigan at Chicago to the Illinois river at Utica, Ill.

Methodist Home For Aged Here Receives Praise

PORTLAND, Ore., June 22—(AP)—Dr. Newton E. Davis of Columbus, O., executive secretary of the National Board of Hospital, Homes and Deaconess work for the Methodist Episcopal church, described to ministers attending the 81st Oregon conference of the church here today the working of the department he directs.

Dr. Davis praised the home for the aged at Salem and the Deaconess home in Portland.

Eight ministers of the conference were retired because they had reached the retirement age of 65. The list included the Rev. David H. Leech of Albany, The Rev. Colonel Walter Pogue of Falls City and the Rev. Charles L. Dark of Salem were retired for disability.

GRAND THEATRE

POLICE TO OPERATE SUB-MACHINE GUNS

KANSAS CITY, June 22.—(AP)—The death dealing rat-tat-tat of machine guns may be on the side of the law in the next encounter between officers and the outlaw gangs that have been terrorizing the southwest.

Armed by the slaughter of four officers and their prisoner, Frank Nash, train robber convict, by underworld machine gunner in Kansas City last Saturday and a long series of other bold crimes, authorities in a number of cities are buying sub-machine guns and preparing to meet the outlaws on an even footing.

In cases of emergency, plans have been made to rush national guard troops, armed with machine guns and other battle weapons, to the aid of civilian officers.

The immunity with which such desperadoes as Charles "Pretty Boy" Floyd, Oklahoma bank robber and machine gunner, roam the southwestern states, has brought authorities to a realization that the challenge must be met by concerted efforts of law enforcement agencies equipped with the most modern weapons.

The federal government through the department of justice—one of whose agents was slain in Kansas City—has thrown its forces into the unrelenting war on the gangsters and will provide a co-ordinating unit for state and local authorities.

"Shoot to kill" was the order given today to Missouri highway police.

DUMPING OF GRAIN ABROAD PROPOSED

WASHINGTON, June 22.—(AP)—Administrators of the farm act are prepared to invoke every power it provides in an effort to trim down the spread of prices between producer and consumer and to bolster the income of the producer.

Among the weapons they were described today as considering are:

- Fixing both maximum and minimum prices under trade agreements with distributors;
- Financing to assist in disposing of surpluses of wheat and other commodities abroad;
- Acresage reduction and levying of maximum processing taxes to boost farm prices.

This determination was expressed flatly today by George N. Peek, the chief administrator, at a press conference after he had announced that an effort to have chain stores halt price-cutting practices would be undertaken tomorrow at the first of a series of informal conferences with their representatives.

Declares G. O. P. Will Rule House

BOSTON, June 22—(AP)—Ernest Sanders, chairman of the republican national committee, predicted they arty would recapture control of the national house of representatives in 1934, at a meeting tonight of regional republican party leaders.

Boston 9 10 5
Detroit 7 10 0

Brown, Rhodes, and Ferrell; Sorrell, Herring, Hogsett, Marberry and Hayworth.

JUSTICE WILL COST LESS, CHIEF AVERS

WASHINGTON, June 22—(AP)—Attorney General Cummings announced today he had arranged to cut expenditures of the department of justice by \$7,650,000 in the fiscal year starting July 1, and would operate on a total of \$33,900,000.

The attorney general said the previous allocation of \$4,400,000 for the prohibition bureau would be slashed almost in half, bringing it to \$4,300,000, and that other reductions would be made wherever possible.

Civil service employes will be given part time furloughs, Cummings said, and those not under civil service and no longer needed would be asked to resign.

He said the consolidations proposed in the president's reorganization order made possible the savings contemplated in reduction of the department's expenditures.

The attorney general said the cut in personnel would result in offices of the United States attorneys operating with fewer assistants and fewer deputy United States marshals.

FAKE KIDNAP YARN RELATED BY BUCK

BARNSTABLE, Mass., June 22—(AP)—Kenneth Buck, the "hooded man" of the McMath kidnaping case, today testified he had been the tool of a mysterious man named "Bill" who told him the father of the stolen child "knew all about" the kidnaping plans.

Testifying in his own defense, Kenneth said "Bill" told him it was not a "real kidnaping" and that there would be no trouble. He said "Bill" threatened to kill him if he "mentioned anything about it."

Kenneth with his brother Cyril, is on trial charged with the kidnaping of Margaret "Peggy" McMath, 10-year-old Harwichport girl from the Harwich Center grammar school on May 2. She was returned three days later after \$50,000 ransom had been paid. The money was recovered in the home of Kenneth.

Kenneth testified that "Bill" told him to wear his chauffeur's uniform when he went to the school to pick up the little girl. "I asked him how he knew I had a chauffeur's uniform," Kenneth said, "and he told me that McMath told him I had one."

"He told me that I wouldn't have any trouble with the girl," Kenneth said, "but that I would

FIREMEN ORGANIZE TO PLAY BASEBALL

Succumbing to baseballitis, Salem's city firemen yesterday began practice on Olinger field with the intention of scheduling games regularly in the city. Because of the shortage of men on the force, they will be unable to make engagements outside the city.

The firemen will play their first game at 6 o'clock tonight at Olinger field with the Kay mill team as opponents. Lorane Clark will pitch and Glenn Sheddock catch for the firemen.

A swollen nose and two black eyes point out Homer Hulsey as the first casualty on the firemen's side. While he was catching unprotected by a mask yesterday, Hulsey's nose and a swift-moving ball collided.
