Miss Davis Home From East

Miss Thelma Davis arrived in Salem Saturday from Philadelphia, where she has been taking special training in voice under the direction of Prof. Connell of Curtis Institute of Music.

The trip west was made by motor with a group of Portland friends. Miss Davis plans to return east this fall and will either go back to Philadelphia or perhaps study in New York city. Plans are yet indefinite.

In a short time Mr. and Mrs. R. C. Davis, parents of Miss Davis, and Miss Davis will leave for San Anselmo, Cal., where they will spend a month with Mrs. Herbert E. Gordon, nee Helen Davis. It is probable that Miss Davis will leave for the east from California.

The past winter, which was the second of study in the east for Miss Davis, included some very successful events, including recitals, radio work and directing of choir work.

PATCHWORK QUILT PATTERN

In the days when quilting first became the American handicraft there not only were certain favorite patterns but also special types of quilts. The friendship quilt was one of them. It varied in style. Some friendship quilts were made of materials donated by one's many friends; to make others friends congregated of an evening and each friend sewed a block. This fan pattern lends itself well to the friendship quilt for the fan itself is formed by the patches donated by friends. A quilt pattern in itself, it could be made of fewer materials by using two materials alternately in the fan.

The pattern comes to you with complete simple instructions for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed

WITH NO. 400 in three different sizes, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

Send 10 cents for this pattern to The Oregon Statesman, Needlecraft Dept., 82 Eighth avenue, New York city.

FIRST LADY WARS ON RED TAPE AND SWEATSHOPS

WITH BEAR MOUNTAIN CAMP GIRLS.

MRS. ROOSEVELT AS RELIEF CHIEF.

Mrs. Franklin D. Roosevelt, wife of the President, recently started offensives on two fronts in the crusade for social betterment of the American woman. She is shown at the women's relief camp in which she is interested at Bear Mountain, N. Y., on the occasion when she urged the cutting of "red tape" to enable many more women to benefit. Her second drive for womanhood was made in an appeal for cooperation of shoppers to stamp out the sweatshop evils by refusing to buy goods that have been produced under conditions that amount to near slavery.

Application of Federal Adjustment Act to Wheat In 3-Year Program Told

Following is a summary of the federal adjustment act as applied to wheat. The program extends for three years, with about \$150,000,000 to be distributed to farmers the first year.

1. Contracts to be offered farmers for acreage reduction on 1934 and 1935 wheat crops up to a 20 per cent maximum of their average for the past three years.

2. Cooperation by the Agricultural Adjustment Administration with existing agencies to facilitate export movement of wheat as provided by the Act, within the limits of international agreements.

3. Possible taking out of the market of a portion of the supply of certain types of wheat produced in excess of requirements this year.

Payments Explained—Compensating payments to be offered farmers in the years 1933, 1934 and 1935.

Payments to be contingent on farmers making and fulfilling contracts to reduce their acreage of wheat in 1934 and 1935, if reduction is required.

Payments to be made this year on the domestically consumed portion of the three-year average production of each wheat grower who signs the acreage reduction contract.

Two-thirds of the compensatory payment this year expected to be made about September 15, the rest upon proof of reduction in the next planting.

Total returns to farmers, part of the ceremony for Portland.

fr payments in consideration of cooperation and part from price, are designed to secure pre-war parity under the act for that share of the farmer's crop consumed in this country, and at the same time to provide a financial incentive for wheat acreage reduction where required.

Processing Tax—The plan to be financed by a processing tax on wheat for domestic consumption.

The amount of the tax to be the maximum under the law, and the date to be the beginning of the 1933 marketing year, to be fixed by the secretary.

The aggregate amount to be distributed to wheat farmers the first year is tentatively estimated to total approximately 150 million dollars.

Acres Reduction—No general curtailment of this year's wheat crop.

Amount of reduction, if any, in succeeding plantings to be conditional upon outcome of world wheat and economic conferences at London.

Acres reduction which may be required of farmers in no case to exceed 20 per cent.

The plan to end with the 1935 crop, or else be followed by a new program if that is required by continued lack of world adjustments.

The Problem of Wheat—Half the world's surplus wheat stocks is in the United States. This country's carryover is estimated at about 360 million bushels.

The four main exporting countries, the United States, Canada, Australia, Argentina, have seen their excess supplies over all domestic and export needs grow from 270 million bushels to 594 million bushels in 10 years.

European importing countries, partly to balance debt payments, have done two things through use of tariff and quota systems: (1) France, Germany and Italy have reduced net imports until the total this year will be only about 40 million bushels, and the United Kingdom is reducing imports and encouraging home production.

(2) Importing Europe has increased its own annual production from 939 million to 1,261 million bushels in 10 years.

The United States has changed from a debtor to a creditor nation, hence losing sales to European customer countries once willing to take wheat in payment on debts.

Prices of wheat in the past year have fallen to the lowest levels in history.
