Today in the tanks of Smiling Associated Dealers is a NEW "FLYING A"—a gasoline that is basically different from any non-premium gasoline sold today. You can hear and feel the difference.

Your car will prove this statement: No gallon of gasoline, except ETHYL, will carry you farther, more smoothly than a gallon of the NEW "FLYING A"—none as quietly. The NEW "FLYING A" comes closer to ETHYL performance than any gasoline sold today.

Today it is performance—NOT CLAIMS—that count. Associated was the FIRST to introduce ETHYL gasoline on the Pacific Coast; FIRST to show the need of equi-fractionating, perfect balance in all performance qualities; FIRST to champion road-test as the only true measure of performance; FIRST to point out the necessity of octane stability; FIRST to market a gasoline "tailor-made" for the climatic conditions of each locality.

Now Associated scores another FIRST. The NEW "FLYING A" is the very latest development in gasolines. New to the Pacific Coast. A definite, measurable improvement that makes meaningful the claims and tests of yesterday. The NEW "FLYING A" is colored amber for your protection.

For a smoother, quieter flowing power—try NEW "FLYING A" today.

TO THE MEN WHO SELL "FLYING A"  
You, as individuals, as men who own your own business, taking the principles of Smiling Associated Service as your guide, have delivered the type of service that makes friends and keeps them. For this, we thank you! We pledge you products that you can sell against all competition, and a program of mutual development of Smiling Associated Service that will build your own business in your community.
