amendment to the federal constitution. Adoption of this amendment would repeal the present 18th amendment and would place only one prohibition on the liquor traffic; the federal government would undertake to prohibit the transportation of liquor into any state or territory operating under its own "dry" laws.

At the same time voters will be asked to elect seven delegates to the state convention to be held 30 days after the July 21 election. Marion county delegates who favor retention of the 18th amendment are Harvey S. Bond, Frank E. Brown, E. W. Coulson, E. S. Hammond, S. B. Laughlin, Glenn E. McClellan, Walter L. Shrock. Marion county delegates who favor repeal of the 18th amendment are Ray J. Glat, Harry Humphreys, T. A. Livesley, Warren Poble, Edward Rostein, Lotta C. Smith, P. N. Smith.

The eight other measures on the state ballot are:

State Economy Delegates on Ballot

Proposed constitutional amendment prohibiting the paying of cash bonuses by the State World War Veterans' commission and providing that no bonus loans can be made after June 30, 1933.

Proposed constitutional amendment authorizing counties by popular vote to adopt a county manager form of government.

Proposed amendment to state constitution to authorize district attorney to prosecute criminal cases on information and without mandatory grand jury indictment.

Proposed amendment to constitution requiring two-thirds of voters at municipal and civil subdivisions to authorize issuance of bonds.

Law which would permit state to issue \$103,779 in state power fund bonds.

Sales tax bill, reauthorized by legislation, imposing for two years a two per cent sales tax on gross retail sales and a three-tenths of one per cent tax on publishing and sales to dealers for resale.

Proposed repeal of Sections 24 and 25 of state constitution wherein prohibition is provided for.

Oleomargarine tax bill, placed on ballot by referendum, by the people, imposing a tax of four cents a pound on such oleomargarine sold and a \$5 annual license tax on dealers.

DALLAS, July 20.—Polk county is preparing to cast her vote on the repeal of the 18th amendment and the state prohibition law on Friday with both the wets and the dries waging a strong campaign. Present indications show that this county will probably reverse her stand at the election last November and go wet by a small margin.

Wet groups have not been as active as the dries and have depended more on public sentiment and advertising than on actual campaigning.

A close race is expected on the candidates and special measures but no definite indications are shown on the vote on the other measures on the ballot. People seem to be more interested in the repeal of prohibition than in the other measures and are content to let the balance of the ballot go as it will.

New Trial Asked For Sheriff of Jackson County

MEDFORD, July 20.—(AP)—A motion for a new trial was filed in circuit court here today by attorneys for Gordon L. Schermerhorn, former sheriff of Jackson county, who was recently convicted of complicity in the theft of 10,000 ballots from the county courthouse on the eve of a recount of votes to determine the legality of his election as sheriff.

The motion set forth that the jury was drawn in an illegal manner, that evidence was insufficient to warrant a verdict of guilty, that the verdict was against the law and that certain jurors had expressed the opinion that Schermerhorn was guilty before they were drawn as jurors.

TESTIMONY ALL IN, GOSS TRIAL

Defendant is Belligerent; Says He may Have to "Picket" Again

Richardson and Newell Williams. Richardson said he knew a shotgun had been loaded with tear gas shells and that he himself stood in the courthouse with a pick handle which he intended to use if necessary, but not against women or children. Hulse testified he heard Goss say from the courthouse grounds: "Judge Steg-mund should remember what happened to the czar of Russia."

At a point in Deputy Williams' testimony, Goodman talked of moving for a directed verdict, when Williams stated he arrested Goss for failing to move after he was ordered to do so, and not for vagrancy. However the state pointed out Williams was not private prosecutor on the vagrancy charge, and with this Judge Hayden agreed.

Besides Mrs. George and Goss, members of the unemployed council who testified for the defense were: Lee Lighty, an ex-serviceman; G. M. Wyatt, minister and painter who admitted on cross examination that he was one of Goss' bondsmen; C. Sturtevant, resident here five years; Mrs. Lola Peterson, 1749 Waller; Mrs. J. Greene, 1149 North 15th; and J. L. Harris of Turner who was the only one to testify, on cross examination, that Goss told the workers they could not resist an armed force after the eviction order was given; Sam Rutherford, secretary of the Unemployed council; and Mrs. B. E. Bergeron.

Goss in his testimony referred frequently to the workers declaring they were in their constitutional rights in staying on the grounds, but when the district attorney planned him down to find what workers made such statements, Goss knew none. Later defense through Mrs. Peterson attempted to bring forth that she had made such statements, but the state's objections were sustained.

Jurors are S. A. Harris, James Sykes, John Barr, F. B. Wilkerson, E. S. Hammond, Ben Robinson.
