was to have been submitted to Washington, D. C. today, N. G. Teron of the Oregon Pulp and Paper Co., was informed late today in a wire from New York.

The code, he was informed, was drawn up by the board of governors of the industry, meeting in New York. Teron expressed confidence that the code would meet with the approval of the administration for a representative of Hugh S. Johnson, administrator of the national recovery program, sat in with the board of governors while it was being drafted.

Teron expressed the belief that "within a very few days" the pulp and paper industry would have its approved code, through which a definite reduction in hours of the working week and an increase in wages will be put into effect.

belief that his committee's aim should be a plan of control designed to eliminate racketeering and other evils that have been blamed on prohibition. Linton Wells, he said, he believed, should be kept so low that bootleggers would have no incentive to operate.

Opposition to "return of the saloon in any form" was expressed by Dr. Knox, who said all members of the commission with whom he has talked feel the same way about the matter.

"We will adopt some regulations for the saloon to return to this state," he declared.

The findings of the commission will be reported to the governor. It is expected that a special session of the legislature will then be called to consider these recommendations and enact legislation to put them, or other suggestions into effect, in the event the 18th amendment is repealed.

# Thousands of New Plants Set Out, State Fairgrounds

All flowers and plants at the state fairground damaged by last winter's freezing weather have been replaced, says W. R. Gould, caretaker. Since spring, he has supervised the planting of 6033 greenhouse plants of which more than 2000 were salvia and pink geraniums. All will be in full bloom by Labor day, opening day of the 1933 state fair, he declares.

On account of the scarcity of dahlias this year, fairground dahlias were produced from slips, Gould said. A special fenced yard has been devoted to the growing and care of window boxes, large pots and tubs. All flowers will be fenced until fair time, he said.

Pointing to the close of the Boy Scout outing at Camp Santiam Sunday morning will be the camp court of honor to be held at 7:30 o'clock tonight, W. L. Phillips, scout commissioner, announced last night. Relatives and friends of scouts will be welcome at this ceremony, over which A. C. Haag will preside.

From the standpoint of the boys' progress and enjoyment, this year's outing has been one of the best ever held in Cascade area, Mr. Phillips said. Among the accomplishments is the fact that every boy who could not swim when he went to camp is now able to do so. Numerous hikes have been taken, including the 14-mile jaunt on which every scout met advancement requirements.

Camp will break up after breakfast Sunday morning and the boys are expected to arrive at their homes by noon. Thirty-seven scouts have been enrolled under the leadership of Don Douris, Ralph Purvine and Harold Haak, with Grant E. Decorah of Chemawa, conducting aircraft classes.

and the state purchased the issue. Information was also given out that the state law prohibited purchase of bonds of any city if they were delinquent in payments. This law was changed by the 1933 legislature, authorities stated, but the new law did not become effective until June 7, or after the bonds had already been purchased.

On the other hand, it was stated that at the time the purchase was being negotiated, the attorney general voiced an opinion that these bonds could be purchased. Attorney General Van Winkle, however, has not yet passed upon the latest request for legal information on the negotiation.

Nellie Bly, 1889—by steamship and train, 72 days, 6 hours and 11 minutes.

John Henry Mears, 1913—steamship and train, 35 days, 21 hours.

Linton Wells and Edward Evans, 1926—by steamship, auto, airplane and train, 28 days, 14 hours, 6 minutes.

Mears and C. B. D. Collyer, 1928—by steamship and airplane, 23 days, 15 hours and 21 minutes.

Dirigible Graf Zeppelin, 1929—21 days, 7 hours, 34 minutes.

Post and Gatty, 1931—by airplane, 6 days, 15 hours and 49
