has \$111,000 in bonds outstanding of which it will pay \$46,000 this year.

The directors concurred in declaring all of the proposed construction was needed immediately because of congestion in the structures included in the program.

Another reason for suggesting the building program at this time was made by Director E. A. Bradford, who pointed out that it would help carry out President Roosevelt's program for relief.

Prompt action, if such a loan is to be sought, was advertised by C. A. Howard, state superintendent of public instruction, whom Dr. Pound asked to attend the meeting to explain required procedure.

School districts, he said, have approximately the same status as municipalities in seeking these funds.

Gilmore Economy Car's Record is Said Excellent

Results of the Gilmore Economy car's 10,000 mile run, just ended in Portland, have been highly satisfactory, according to Guy V. Smith, Gilmore manager for Salem. The car made its mileage in round trips between Eugene and the Canadian border.

Figures on the test showed the Economy car averaged 19.33 miles a gallon on the Fortified Red Lion gasoline, with a correspondingly high performance with the oil, getting 625.3 miles on each quart. The Ford V-8 driven at all driving speeds, went the full 24 hours daily, three drivers taking turns at the wheel. The speedometer was certified by its manufacturer as being absolutely accurate.

MT. ANGEL, July 31.—The league-leading Mt. Angel nine held its own game lead in the northern Marion county section of the Mid-Willamette league by defeating Hubbard here Sunday by a score of 11 to 5. The game was closely contested for six innings, the score being tied twice. However the Angels put on a six run rally in the seventh inning which decided the game.

Hitting honors were about even for both teams but some ragged fielding by the Hubbard infield resulted in several unearned runs for Mt. Angel. Mt. Angel plays Aurora here next Sunday and a win will mean the championship of the northern section. Should Mt. Angel lose to Aurora, it will necessitate a play-off series to decide the championship. COACH DOPES OUT NEW PLAYS

"It's all in the execution," says Howard Jones, but he doesn't mean in winning poker pots, but in winning football games. The famous University of Southern California football coach used the chips to work out new formations and plays, and here he is explaining some of his latest plays to two of his star pupils. Standing is Johnny Baker, former Trojan All-American guard, who will install the "Jones system" in the Iowa conference when he becomes head coach of the Iowa State Teachers' college this fall, and sitting is Tex Oliver, former Army star, who will introduce the "Jones system" at the University of Arizona when he takes over the coaching job in September.—International Illustrated News-Photo.

Salem's wage totals also held up well, the figures reveal. In 1929 the manufacturing payroll in the 63 establishments in this city totalled \$2,205,850. In Klamath Falls, which with \$2,011,229 in 1929 almost equals Salem total payroll, the 1931 total fell to \$1,415,803.

FULLIS THE FORMER GIANT, HAS MADE GOOD WITH THE PHILS, WHILE MARBERRY, EX-SENATOR, IS STARRING FOR DETROIT!

Chick FULLIS THE PHILLY FLASH IS RAPIDLY BECOMING ONE OF THE BEST OUTFIELDERS!

"FIRPO" MARBERRY HAS BEEN PITCHING GOOD BALL FOR HIS OLD BOSS BUCKY HARRIS!

It wasn't so many months ago when we were all sitting around and watching the brain trust of the major league baseball teams going through their annual mental gymnastics which resulted in sensational trades and swaps. And we had a good time trying to figure out which manager was getting the better bargain in each deal.

When Burt Shotton let George Davis go to the Giants, in that deal that involved the Pirates as well, there were loud lamentations. Chuck Fullis, who came to the Phils as a result of the deal, was no bargain in exchange for the star, Davis.

But how the tables have turned! Now we can see that Shotton was an easy gentleman at the bargain

counter, for Davis hasn't set any houses afire with the New Yorkers, while Fullis, who was only a part-time garden guardian for the Giants, has developed into a first rate outfielder and batsman for the Quaker team.

Chuck's new uniform certainly boosted the lad's playing. He has done excellent work in center field, playing in every game, and at the bat he has been something of a sensation. He was the first man in the National League to reach the 100-mark in making hits, despite his difficult position as lead-off man in the line-up.

Chuck is now a full-fledged Philly star, thanks to the trade that dug him out of the Giants and gave him a chance to show what he could do.

Another player who changed uniforms and has blossomed forth as a topnotcher is "Firpo" Marberry, who was traded by the Senators to Detroit and went there gladly, for he was a buddy of Bucky Harris, his old boss.

When Harris left the Senators, Marberry went into a slump from which he could never rise long enough to hit his old strids. Then came the deal that sent the pitcher back under the tutelage of Harris, and Marberry snapped back in a great shape. He has been more than holding up his end of the pitching assignments for the Tigers, and has regained his position as a first-class hurler.

That's how it works—sometimes.
