..That's why "Salad Dressings" Cost 1/3 Less!

COMPARE YOUR FIGURE WITH CLAUDETTE COLBERT'S

Height, 5 ft. 5 in. Weight, 107 lbs. Bust, 32 1/2 in. Waist, 25 1/2 in. Hips, 35 1/2 in. Calf, 13 1/2 in.

See Claudette Colbert in her latest Paramount Picture, "Torch Singer." You, too, can retain a youthful, supple figure, by following the safe, sane Best Foods Slenderizing Plan. Simply eat two salads a day, covered with Best Foods Mayonnaise, in place of heavy, fattening foods. Try it.

*Slenderize with Salads!*

The picture diagram at right below shows you that "Salad Dressings" contain 30% to 40% water—no wonder they cost less than a quality mayonnaise like Best Foods!

Would you like to know, Miss Colbert, how they make these so-called "Salad Dressings"?

This is how they do it: First they take a little mayonnaise; then they add water right out of the tap—sometimes as much as 30% to 40%. Then they put in cereal "fillers" and cook the mixture to make it stick together.

Now do you wonder that "Salad Dressings" can never match the high quality and delicious flavor of a true mayonnaise like Best Foods?

**New Low Prices**

That's why millions welcome the new low prices of Best Foods Mayonnaise, now featured. There is no substitute for its fine ingredients—the same ingredients you use in your own kitchen.

Naturally no "Salad Dressing" can give you the same delicious flavor, velvet smoothness, and valuable health benefits.

But... if you feel that you cannot possibly afford even these extremely reasonable prices for Best Foods Mayonnaise

### WHY SALAD DRESSING COSTS 1/3 LESS

A LITTLE MAYONNAISE + CEREAL FILLERS + WATER = COOKING

NO WATER IS ADDED TO REAL MAYONNAISE. Best Foods Mayonnaise, you know, is made from eggs, fine salad oils, imported spices and selected vinegar—no water is added, no "fillers," no cooking. While even the finest salad dressing, as you see, contains inexpensive "fillers" and water (as much as 30% to 40%) to give added bulk so it can be sold for slightly less than real mayonnaise.
