# SMOOTHER.. QUIETER

**NEW "FLYING A"** brings a smoother, quieter flowing power to your car. New, because there is in "FLYING A" a quality new to non-premium gasolines. It comes closer to ETHYL performance than any other gasoline.  
Your car will prove this statement: No gallon of gasoline, except ETHYL, will carry you farther, more smoothly than a gallon of the NEW "FLYING A"—none as quietly. NEW "FLYING A" is colored amber for your protection.

**PERFORMANCE—NOT CLAIMS**  
Associated was the FIRST to introduce ETHYL Gas-

oline on the Pacific Coast; FIRST to show the value of equi-fractionating—perfect balance in all qualities; FIRST to champion road-test as the only true measure of gasoline performance; FIRST to point out the need of octane stability, controlled anti-knock performance; FIRST to market a gasoline "tailor-made" for climatic conditions of each locality.

Now Associated scores another FIRST. The NEW "FLYING A" brings a definite, measurable improvement that makes meaningless the claims and tests of yesterday.

**TRY NEW "FLYING A" TODAY!**  
Ask your Smiling Associated Dealer about it. Prove it in your own car. Hear the difference—feel the difference as you drive.  
And when you buy, note how the Smiling Associated Dealer goes about his work. He is sincerely interested in you and your car. He is not only efficient but also friendly and courteous.
