

SPECIAL SESSION BELIEVED LIKELY

(Continued from page 1)
tonight that if Governor Meier calls a special session, the legislature might consider two other matters, truck and bus legislation and the regulation of liquor in the event the 15th amendment is repealed.

Circuit Judge Lewelling of Marion county this week held that the truck and bus act passed by the recent session of the legislature was unconstitutional. Governor Meier has already appointed a commission to study various plans of liquor control.

In emphasizing that the federal relief administration will help only those states that have done their utmost to meet their own problem with their own funds, Williams said that other states are preparing to shoulder their share of the load and Oregon must do likewise. He pointed out that California has authorized a \$20,000,000 bond issue for relief and Washington, a \$10,000,000 bond issue for relief.

Wilcox indicated state relief funds will be exhausted October 1. The federal government will then advance \$300,000 under an agreement to advance one-third the amount expended for relief locally during the past quarter. When that money is exhausted, Wilcox said, the state relief committee will be "broke."

The counties, he said, will have an estimated \$100,000 to spend after which their funds, too, will be exhausted.

The state relief chairman said that for relief Oregon will need \$400,000 in October, \$500,000 in November, and \$550,000 in December, leaving about \$1,000,000 needed to carry on a "reasonable" relief program for the rest of the year.

Although general business improvement seems to take up some slack, Wilcox said, a conservative estimate is that Oregon will need from \$5,000,000 to \$6,000,000 for its relief program in 1934.

RUSSIAN QUESTION BOBBING UP AGAIN

WASHINGTON, Aug. 17.—(AP)—Secretary Wallace said today the question of recognizing Russia had arisen in negotiations for the sale of cotton to that country and that the Amtorg Trading corporation, Soviet commercial agency, had been "playing a rather coy game for recognition."

Former Senator Brookhart (Iowa) eastern European trade adviser for the farm administration, has been carrying on negotiations with the Amtorg for the cotton sale.

So far the negotiations have not resulted in any definite arrangements but they will be continued, Wallace said.

Brookhart said representatives of Amtorg have asked for a six year loan to finance the purchase. Efforts to obtain this loan have been made in conferences with directors of the Reconstruction Finance corporation, Brookhart said, but that agency apparently was unable to make a loan for more than a five year period.

SECURITY MARKET RESUMES UPSWING

NEW YORK, Aug. 17.—(AP)—Security markets resumed their upward swing today under the impetus of soaring grains and cotton, improvement in economic sentiment generally and a relapse in international dollar rates.

Stocks, in a not unusually active session, retained net gains of \$1 to \$5 or more a share; grains, excepting wheat, advanced to around their allowable daily maximums, and cotton spurted \$3.20 to \$3.75 a bale. The dollar lost around 9 cents in terms of sterling and was weak in relation to European gold currencies.

It was the best session for stocks since July 24. The Associated Press-Standard Statistics average for 90 selected issues gained \$4.50 at \$85.50. Sales, however, totaled only 2,474,730 shares against the many 6,000,000-share days of several weeks ago.

The rebound in grains was attributed largely to a thinning out of over-hanging selling orders which yesterday forced prices down to their permitted limits. Cotton was believed to have spurred largely in sympathy with grains.
