Group From Silverton Attends Market day Event In Portland

SILVERTON, Aug. 17.—Smith-Hughes boys from Silverton who are busy preparing exhibits for the F. F. A. farm shop display at the state fair are William Dunagan, Grover Lighty, Thorval Hanson, Harry Way, Tom Miller, Greer Moffett, and Edward Blyeu. The Silverton group plans to enter a stock judging team at the Washington county fair at Hillsboro August 26. This is the first

time this fair has held an F. F. A. stock judging contest for high school vocational students. Market Day Held One of the big features of the summer was the Market Day held at Portland today. Fifteen boys and their fathers left early in the morning for the stock yards at Portland. The boys took but one or two hogs to the market since their hogs matured for an earlier market. Their breeding stock has also been in demand in the local and adjoining communities and thus the number on hand was short and is kept for breeding purposes. Among the things of interest, the boys were planning to do during the day were attending an explanation on market procedure through a central market; watching the livestock being sold to buyers; seeing it weighed; sales demonstration between commission men and buyer; weight judging and price estimating contest

on four or five pens of hogs; free lunch at noon furnished by the Portland Union Stock Yards company, at which there were talks by F. F. A. boys, stock yard officials, buyers, bankers and representatives of various cooperatives. Visit Industries In the afternoon the boys divided into groups and visited the industrial Harvester company; Schlusser Horse Packing plant; Swift and Company packing plant; Frost Kist-ice Cream company; Federal grain inspection department; Pacific Co-operative Wool Growers; Pacific Coast Poultry Producers and the Western Dairy Products company. Prizes which may have been won by Silverton boys was not learned here late Thursday night.

EAST WOODBURN, Aug. 17.—Threshing is now underway in this section. Joe Obersinner being the first to secure the threshing. Threshing under the best condition is a hard enough task, but the intense heat of the early week made it exceptionally difficult. Today's cool weather was a relief.
