Philharmonic Choir Tour Insights

Many people in Salem have been interested in knowing about the tour of the Philharmonic choir of Willamette university which traveled by bus to Chicago singing en route at many places before arriving in Chicago where it sang as a part of the program offered by the Chicago Century of Progress exposition.

Amusing sidelights from this tour and interesting ones as well are recorded in the many letters home from members of the choir. Among these letters are those of Miss Genevieve Thayer who has been with the choir. Miss Thayer made some special visits after arriving in Chicago including an airplane trip to Washington, D. C. where she was the guest of Miss Jane Martin who has visited with Mrs. Claudius Thayer at Willamette lodge several summers and has made many acquaintances in Salem. Miss Thayer also visited in Wisconsin and joined the choir en route home in Colorado. The choir is expected to arrive in Salem about Thursday.

Meals were prepared en route and were served from accounts in the basements of Methodist churches and at times there were the far-famed Methodist "fried chickens," and at other times there were the "feeds" in parks, some of which were described as "starting out to be a cemetery but later resulting only in a park," and at other times when concerts were being given the choir members were housed in the homes of cities' interested people.

Scenes of pressing clothes to keep them fresh in the wilting hot weather, of laundry efforts, and of the "flies" of Kansas as well as the drouth that resulted in that state with crops burned and wilted, and the scourge of grasshoppers and the baleful tales of cyclones—all make up an interesting parade of sidelights to this tour. In these amusing and instructive letters.

In one letter from Kansas is stated, "A real cloud burst has just begun and you should see it. The rain is actually muddy." From Springfield, Ill., was written, "Lincoln practiced law in Springfield for a few years. We visited his home and saw his favorite rocking chair—then we went to the memorial monument where his tomb is. His family is buried there also. Then an old man took us into a wooden building where he has the record of all the known letters Lincoln wrote, has all the pictures of Lincoln, all his speeches, and a large library about him. Carl Sandburg and others who have written about Lincoln have gathered much of their information from this place.

Sight-seeing trips in Chicago, tours through all parts of the city, amusing stories told by citizens concerning the meaning of the "racketeers" and description of their quarters in Chicago were among the interesting Chicago stories. The 28 young people and Director Marshall and Miss Helen McHirron, chaperone, were housed in the Chicago Training school, six miles from the center of the city. The school trains ministers and missionaries. As to the exposition, "All the buildings are carnival architecture and color. Jazz. No beauty as in the old fair. Still each time we see it, it seems to be more one building is bright blue, yellow, black, silver and it is next to a vivid green building." Especial mention was made of the unusual effect of the hall of science building, also the Illinois building, and of the many, many interesting people of fame and fortune who were met and who formed part of the schedule of entertainment for the choir members.

Employees and families of Nelson Brothers enjoyed a picnic at Hazel Green Thursday with about 75 present for the evening.
