

# GERVAIS OPENS HIGH SEPT. 18

### Instructors Settling Already; Sisters Arrive for Parochial School

GERVAIS, Aug. 31.—The high school board has set September 18 as the opening date for school. September 11 will be registration day. John Buchanan and wife will move down from Albany soon and will occupy the Henry house. Mr. Buchanan will teach in the high school again this year.

### Moves to Salem

Miss Ellen Hackitt, who sold her home to Dr. and Mrs. A. B. Adkisson two months ago, has moved to Salem, where she and her nephew, Lyle Glover, will reside. Dr. Adkisson has begun remodeling the house and expects to be ready to occupy it by about the middle of the month. Mr. and Mrs. Howard Booster will move from the Lake Labish section to his mother's house just south of town when the Adkissons move.

### Honored at Last Rites

The Presbyterian church was filled to overflowing both Monday and Tuesday when funeral services were held for C. E. McDougall and J. Bingham, both of whom were old time and highly respected residents of this community. Those coming from out of town for the Bingham funeral were Mr. and Mrs. Steve Bingham, Mrs. Clarence Matt and Mrs. Jennie Dupuis, all of Portland; Mrs. George Schults and Mrs. Ernest Rutherford, of Salem and Mrs. Cecil Cathy of Albany.

### Trophy on Display

The Wilson trophy awarded to the Parkersville baseball team as Marion county champions in the grade school baseball league is on display in the bank window. Miss Rose Marie Kronberg was coach.

Church services will be resumed at the Presbyterian church next Sunday. Rev. Grafious has taken a vacation of one month.

### Auto Industry has Nice Pickup, Says Silverton Visitor

SILVERTON, Aug. 31.—"General Motors sold more automobiles by the end of July this year than they sold all last year," said Kenneth Youel, former Silverton resident who has been visiting in Oregon this week. Mr. Youel is now with the General Motors public relations department in New York.

He is a graduate of the Silverton high school attending here while his father, B. T. Youel, was superintendent of the Silverton schools. After his graduation from the University of Oregon he was with the Oregonian, and later was assistant financial editor of the New York Post.

### LaFrance Injured as Motor Strikes Head

MONMOUTH, Aug. 31.—While mowing an electric motor Tuesday, George LaFrance was severely injured when a plank on which he stood collapsed allowing the motor to fall upon him. A gash five inches long was cut in his head severing an artery, and the left middle finger was cut off at the first joint.

### Today's Menu

By LOUISE BENNETT WEAVER  
Pickled Cantaloupe Recipe  
Dinner Menu for Three

- Frizzled Dried Beef
- Mashed Potatoes
- Spinach Samoset
- Fruit Salad
- Sliced Peach Coffee
- Spinach Samoset, Serving Three
- 2 1/2 cups cooked spinach
- 1 tablespoon butter
- 1/4 teaspoon salt
- 1/2 teaspoon paprika
- 1 egg
- 1-3 cup chopped cheese
- 2 tablespoons cream
- Chopped oked spinach and add butter, salt, paprika and egg.
- Heat slowly and stir constantly until mixture becomes hot. Add rest of ingredients and cook slowly 5 minutes. Stir constantly.

### Fruit Salad

- 1/2 cup berries
- 1/2 cup diced pineapple
- 1/2 cup diced pears
- 4 tablespoons French dressing
- Mix and chill ingredients and serve on crisp lettuce leaves. Fresh or canned fruit may be used in this salad.

### Pickled Cantaloupe

- 4 pounds rind
- 1/2 cup salt
- 8 cups water
- Remove yellow or green part of cantaloupe and with sharp knife cut off peel. This will then leave a white part, which can be cut into small pieces suitable for serving. Soak over night in salt and water and in morning drain well and cover 2 inches with cold water and cook slowly until rind is tender when tested with fork. Drain and add to syrup.

### Syrup

- 4 cups vinegar
- 4 cups sugar
- 4 sticks cinnamon
- 1/2 cup whole cloves
- 1 cup water
- Loosely tie spices in white bag and add to rest of ingredients. Boil 5 minutes. Add prepared rind and cook slowly until it has become well glazed and syrup has thickened. Pour into sterilized jars and seal.

Sliced bananas fried and served with chicken make for novelty and flavor.

# School Man Heeds Lure Of Earlier Experience In Mines; Sons Do, Too

### By BRULAH H. CRAVEN

MONMOUTH, Aug. 31.—F. M. Roth, principal of Monmouth high school, accompanied by Mrs. Roth and son Kenneth, made a quick trip to Nevada starting August 23 and returning August 30, to bring their sons Norman and Kenneth home for a month's stay. The two boys have been working in a mine near Winnemucca, Nev., and will go back there to work after a visit at home.

Mr. Roth has an interesting mining record, which began before he started his school teaching career. In 1902 he took up mining engineering at Oregon State college. In Nevada he participated in "Tonopah's" first anniversary celebration. It then had a population of 20,000, which now he says is about 625.

At the time of the big strike it was one of the richest mining centers in the world. Roth was one of a party of youthful surveyors who surveyed claims at \$20 each completing three claims daily. At one time they had contracts to survey 180 claims. Roth was paying \$25 per day for assessment work on his own claims. He could have sold out at one time for \$20,000 but thought the claims were as valuable to him as to someone else.

### Do Jack Londoners

When he was 19 the lure of the Yukon fastened on him and with two other boys he purchased a 16-foot launch, had it shipped to Seattle and the trio headed north. At sea one night a terrific storm arose in which 16 sailing vessels went down and 26 fishermen lost their lives, near the international boundary line between Canada and the United States.

They spent six weeks prospecting, hunting and fishing, finding neither the gold or copper they sought. They had read many of Jack London's tales, and were thrilled to camp over much of the country he described. They had adventures in plenty which would class with any London ever wrote about. On one occasion they dragged their boat 72 miles over ice to reach open water beyond.

### Sink Deepest Shaft

At Dawson they worked three years, surveying for the Yukon Gold company. In this time they dug the deepest shaft ever sunk in that territory, 357 feet down through frozen ground. This achievement is recorded in the gold commissioner's office in Dawson. The work proved vain, for the shaft filled with water in a single night and machinery could never be installed.

Another project, equally unusual, was successful. For the same firm they ran survey lines for a mining scheme which involved an expenditure of five million dollars to bring water to sluice one creek.

### In New Famous Men

In Dawson they met Dunlap, partner of Rex Beach. The latter had then gone to Goldfield, Nev. Dunlap would read them letters received from Beach equal to any magazine thrillers. Robert W. Service, famed poet of the Arctic, was cashier of the bank where the Oregon boys cashed checks. Several persons whom Dawson and Beach lifted from real life as characters in their tales, were "just folks" in Dawson.

### Lure of Ore Calling

Since 1914 Mr. Roth has been teaching school. But the increased interest in mining has been on his mind, even though he felt he was through as a miner. This summer A. A. Garrett of Albany, who started mining 27 years ago on the same day, and in the same place Roth started, came to the Roth home with a mining proposition that looked good. The two men with six others have leased a mine in Nevada and are sinking a shaft. Included in their group are grad-

### Cows and Heifers Sell From \$5 to \$14 At Public Auction

SHELBURN, Aug. 31.—Threshing is practically over in this section and the yields have been on an average better than the farmers had anticipated. A number from here attended the public sale held at the McDonald farm Tuesday. The sale was primarily livestock, cows, and heifers sold from \$5 to \$14.

Mrs. Lottie Derochies, who has been employed as house keeper for Chas. Riffe for the last year is leaving this week for Portland. Mr. Riffe will leave the farm this fall and the owner, Delmer Churchill of Mill City, will take charge.

### Showers Halt Labors Of Threshing Crews

WHEATLAND, Aug. 31.—The showers here Tuesday were greatly appreciated by many farmers although threshing is at a standstill until the weather clears. Rain was not of sufficient volume to stop the picking where good wages are being made, the average adult picker receiving \$2 to \$2.50 a day. At the Will Magnoe yard Tuesday one lady picked 280 pounds. They receive one cent a pound.

### LILLIAN BLOCK RETURNS

SILVERTON, Aug. 31.—Miss Lillian Block, who spent three weeks with her relatives in the Dakotas, has returned to Silverton. Accompanying her is her sister-in-law, Mrs. W. A. Block, who will visit here for a time. Mrs. Block lived here eight years ago and was a nurse at the Silverton hospital for a time. Miss Block, also a nurse, will return to her work at Dr. Kleinberg's office the first of the month.

# CENTRAL HOWELL VOTES DOWN LEVY

### For School Busses; Classes Will Convene for new Year Sept. 25

CENTRAL HOWELL, Aug. 31.—The suggested tax levy of one mill for purposes of high school transportation, voted on Tuesday night, was defeated, 89 to 42.

Mr. Roth will continue as principal at Monmouth starting his 10th year here. His sons, Norman and Kenneth, will forego college this year to work in the mine. They think the proposition looks favorable. Three of the members of their group are mining engineers, and one a metallurgist. They admit their aggregation sounds like a "brain trust," and perhaps that means something to a mine—but only time will tell.

Their location is 30 miles from Star Mountain where William Randolph Hearst, the publisher, made many millions from a mine.

Grace Behon and Miss Torhid Brauti, both of Salem, were rehired.

Clifford Dougherty, who has been at the home of his sister, Mrs. Clarence Simmons, for the past two months, went to Brownsville Tuesday to spend the rest of the week and will then go to Cloverdale to start teaching in the high school there Monday.

Hop picking started at the Frank-W. Durbin yard Wednesday and at the Egman yard Thursday. The hops seem to be fairly heavy this year.

Mrs. A. A. Natselger spent a week in Lebanon helping to care for her sister, Mrs. Hunter, who has suffered two paralytic strokes.

### MRS. ORMBREK RETURNS

SILVERTON, Aug. 31.—Mrs. Ingeborg Ormbrek, who has been spending the summer with relatives in Montana, is expected to be home Sunday. Her son-in-law and daughter, Mr. and Mrs. Earl S. Adams, who have been living in her home during her absence, will move to 217 Cherry street.

# "CAMPUS CAPS" and "KNOBBY KNOBS"

We are showing the very newest in headgear for those who would "head the class" where "class" is appreciated.
