Courses in Reading are Great Sport

SILVERTON, Sept. 28. — A great deal of interest is being taken by Silverton public library patrons in the reading courses offered through the state library. Lillie Madson, local librarian, reports that some very interesting applications have been made through the Silverton library. Among the interesting courses outlined in the Silverton library was one for a reader who was interested in patchwork quilts, from their origin to the present day. Some very lovely books are being received by this reader. Another reader made application for a study in gardens of the various countries of the world. Yet another reader is studying hand weaving. Some of the Silverton readers are taking reading courses in

Scandinavian history and literature. Others are studying the lumber industry. All of these who are taking the work expressed themselves as very pleased with it.

District Buys Bus For School Uses; May Get New One

WOODBURN, Sept. 28. — A new school bus, bought to transport high school students from the district around Butteville and Donald, made its appearance in Woodburn streets Wednesday night. The bus was bought by the Woodburn school board from the Sheridan high school district at a cost of \$325.90.

Paul Mills, chairman of the school board, stated that the board intends to use the vehicle till it can buy a new bus, trading this one in on a new one. The board has contacted agencies for several motor bus manufacturers with few definite results. There is not a new school bus on the Pacific coast, according to Mills. The recently purchased bus will have a good trade-in value on a new bus, it is thought.
