Reich Minister Talks at Geneva; French Oppose German Rearmament

GENEVA, Sept. 28.—(AP)—France cannot sponsor any rearmament of Germany, Joseph Paul-Boncour, French foreign minister, made plain today after a reich official had told correspondents his country should be treated as an honest partner in the reconstruction of a peaceful Europe.

The French stand was set out in a conference between M. Paul-Boncour with Konstantin von Neurath, German foreign minister. The latter will go to Berlin tomorrow to submit the French, British and Italian disarmament plan to his chief, Chancellor Hitler.

Germany's desire for peace was made known by Dr. Joseph Goebbels, reich minister of public enlightenment and propaganda, who said:

"To infer that Germany desires war is shortsighted and discouraging in view of the fact that everywhere else there is no disarmament, but rearmament."

Germany was described by the minister as peace-loving, firmly determined to bring about reconstruction and as setting up a barrier against the spread of Bolshevism. Peace was necessary, he continued, for the carrying out of the nation's plans.

It was learned authoritatively M. Paul-Boncour had urged Germany to join the peace move by accepting a four-year trial period which would involve the control of existing armaments. Thereafter a second stage would begin, during which the question of German armaments could be reopened.

BRITONS ON WAY TO DISCUSS DEBT

WASHINGTON, Sept. 28.—(AP)—An atmosphere of business instead of diplomacy will surround the war debt discussions that begin here next week with representatives of the British government.

It was disclosed today they will be conducted by Dean Acheson, undersecretary of the treasury, and Frederick Livesley, an economic advisor of the state department. The British spokesman will be Sir Frederick Leith-Ross, who sailed yesterday from England.

Secretary Hull described Acheson as being competent as anybody in the government to handle the matter and said he would have Livesley's able cooperation.

In putting the negotiations in the hands of the treasury, the government returned to a policy followed early in the debt problem. Under President Wilson, the debts were regarded as a treasury matter.

More recently under President Hoover and Secretary Stimson the state department handled the problem and even in the early stages of the present administration this policy was followed with Raymond Moley, who recently resigned as assistant secretary of state, working on the debts with the president.

The conversations are expected to begin Friday, shortly after the scheduled arrival of Leith-Ross and his companions, Sir Ronald Lindsay, British ambassador and T. W. Bewley, a British treasury expert.

Several members of the crew needed medical attention.

LINDBERGH'S ARE GUESTS AT BANQUET

MOSCOW, Sept. 28.—(AP)—Colonel Charles A. Lindbergh and his wife, still uncertain about when they will return to the United States from their tour of Russia, are laying plans to come back for another visit two years hence.

The colonel made this known at a banquet at which he and his wife were feted last night. Also in attendance were United States Senators W. C. McAdoo of California and R. R. Reynolds of North Carolina.

"We are both anxious," Colonel Lindbergh said, "to return in two years to see the results of your present experiments translated into actualities."

There were cheers then and more later for Mrs. Lindbergh when she turned toward four women pilots and said, "I am honored to sit at the same table with Soviet women aviators who are participating in the development of this science on equality with men."

After more sightseeing tours to

day, the Lindberghs planned to leave Moscow tomorrow, but refused to say what their destination would be.

BOSTON THIEVES MISS BIG DRAG

BOSTON, Sept. 28.—(AP)—Without the use of firearms, three men stole three small pouches from a moving electric truck on a train platform at the south terminal station today and escaped with cash and negotiable securities worth less than \$5,000. Other pouches containing registered mail valued at \$100,000 for Newport, R. I., and Plymouth banks were untouched.

From the station the robbers fled in an automobile driven by a confederate. The car, which previously had been stolen, later was abandoned in the south end of the city and the escape continued in another stolen car.

OFFICES CLOSED ON STABILIZATION

WASHINGTON, Sept. 28.—(AP)—Completion of all transactions involving donation of government wheat and cotton to the Red Cross has resulted in the closing of the grain and cotton stabilization corporations which attempted to stabilize farm prices.

In making the announcement today that the offices of the corporations had been closed, Henry A. Morgenthau, Jr., governor of the farm credit administration, said that out of funds available for distributing the relief wheat and cotton, \$4,025,116 had been returned to the treasury.

A total of 85,000,000 bushels of wheat and 844,063 bales of cotton were delivered by congress to the Red Cross from the stabilization corporations. The wheat and cotton, however, were only a fraction of the purchase by the farm board in the attempt to keep farm prices up.

Morgenthau said the savings to the treasury were effected by budgeting carefully the normal deliveries to the Red Cross. The relief organization used the wheat and cotton for distribution to the needy.

PEACE RESTORED IN NORTH CHINA

FRANCE TO LIMIT QUOTAS ON IMPORTS

PARIS, Sept. 28.—(AP)—Import quotas on agricultural products were cut approximately one-third today, inaugurating the government's policy to reserve part of the quotas for tariff trading.

The United States will be affected chiefly in imports of apples and pears. The restrictions also are likely to curtail imports from Latin-America, Argentina in particular.

The range of the cut was indicated in a reduction in total imports of apples and pears from 68,000,000 pounds to 25,000,000 pounds. This is only slightly above the present quota from the United States alone.

Sharper restrictions are expected when the important quotas on industrial products are announced.

Freshies Get Break 3 Weeks' Hazing

Good news for freshmen on the Willamette university was announced Thursday: Initiatory and hazing activities conducted by upperclassmen will be limited to a three-week period. The sophomores, who with the Cub organization "discipline" the rookies, declared the former prolonged schedule of hazing imposed too heavy a burden upon themselves.

Curtailed of the freshman disciplining comes as a result of a movement started on the campus several years ago. Class fights were turned into regulated competitions, wearing of the green cap was later not required as long as formerly and more recently freshmen were freed of fearing the sophomore paddle later than the November homecoming weekend.
