

WALKER TALKS HOPS TO CLUB

Declares for Regulation; Industry Brought Oregon Eight Millions

MONMOUTH, Oct. 5. — Dean Walker of Independence, president of the Oregon Hop Growers' association, and member of the lower house of state legislature from this district, spoke to Monmouth and Independence Lions here Tuesday at the weekly luncheon, presented the hop growers' side of the repeal measure in a spirited and entertaining manner.

While he cannot, as a hop grower, desire to see the sale of beer or any other malt product decline, Mr. Walker is emphatically in favor of regulated sales of liquor; of no debauchery, and to prohibit returns of the saloon. Too high a liquor tax is also not economically profitable.

Asked About Prices
Since the hop harvest is bringing into the Willamette valley about \$8,000,000 this year, it is of course an agricultural crop of first importance. Several questions were fired at Mr. Walker from various Lions as to the why of low prices paid for picking this season. He replied that many growers are held to term contracts of sale at 14 to 16 cents per pound; also that \$1.20 per hundred is the high record price paid for picking heretofore, which price was slightly increased before the close of the present picking season.

On the economic situation of the state he expressed hope that no measures would become prevalent to encourage any one to lose his personal ambition for self-dependence.
