

# JAPANESE IRE AROUSED AGAIN

### Publication of Documents Deemed "Fabrication" Strains Relations

(Continued from page 1)

Japanese officials declared the soviet official news agency's publication of the Chinese Eastern railway reports were considered "an unfriendly act," and that guarantees against a repetition of such an act would be demanded, failing which the expulsion of the Tass correspondent in Japan would probably be considered.

Officials considered the action of the Tass correspondent in Tokyo in circulating the alleged Hishikari documents to Tokyo vernacular newspapers after Ben-go (Japanese news agency) had declined to publish them required some kind of punishment.

Only one Japanese language newspaper published the Tass story, although several printed brief digests of the alleged documents.

# COAL STRIKE MAY BE SETTLED SOON

(Continued from page 1)

President of the U. M. W. A. interpreted the message to mean Moses, named representative of the "captive" coal mine operators, was ready to deal with the union. More than half of the 75,000 striking miners had refused to return to work "until Frick signs the union agreement."

National guardsmen brought order to Indiana coal fields after the homes of seven miners were bombed at Sullivan and Hymers, Ind.

William Long, chairman of the Weir-Cove chapter of the Amalgamated Association of Iron, Steel and Tin Workers, withdrew union pickets at Weirton, W. Va., plant of the Weirton Steel company, easing the situation there. Strikers charged E. T. Weir of the company with saying "We may have to shoot a few," although Weir denied the report.

Before Long issued his order, state police had been sent to the mill town.

Resumption of work was reported from Allegheny, Westmoreland, Indiana, Washington, Armstrong and Jefferson counties in Pennsylvania.

# Help Kidneys

If your kidneys are weak and you suffer from getting up nights, nervousness, rheumatic pains, stiffness, burning, stinging, itching, or acidity, try the guaranteed Doctor's Prescription, Cystex. It must be your own money. Cystex. Only at drug stores.

# Salary Clause in Code Rapped

GEORGE RAFT BORIS KARLOFF MIRIAM HOPKINS ANN HARDING FREDERIC MARCH

Here are a few of the prominent Hollywood stars who have registered a protest against the NRA code proposed by the motion picture industry. Fourteen leading performers resigned membership in the Academy of Motion Picture Arts and Sciences and sent a protest to Washington against the formation of a "salary control board."

Strangely, only two female stars of first-rank prominence are among the rebels. They are Ann Harding and Miriam Hopkins. Three notable male rebels are Boris Karloff, better known to film fans as "Frankenstein"; Frederic March, one of the screen's great lovers, and George Raft, who portrays the polished gangster.

# FOSTER'S LEAD TO MURDER BLOWS UP

Possibility that Stanley F. Foster, arrested at Oakland, Calif., last week on a charge of grand theft, might be connected with or be a source of information regarding the murder of Howard Jones, Valley Packing company night watchman here, the night of August 5, faded yesterday when District Attorney William H. Trindle communicated with Oakland authorities by telephone.

"It's blown up," Trindle said. "Foster was in California when the holdup of Jones was staged here. Further information from Oakland is coming by letter."

Reports that Foster bore an open wound, taped up, were untrue, Trindle said he was informed. When the tape was pulled off, it was found Foster had only played a common trick of concealing a wound. It had been thought the wound might connect Foster with the Jones holdup here since Jones shot at least four times before his assailant fled.

# Taxpayers Will Eye Budget for School Tonight

A \$30,000 appropriation for warrant interest and redemption is expected to be the chief source of protest, if any is registered, at the annual taxpayers' meeting for Salem school district to be held in the superintendent's office at 8 o'clock tonight.

The budget as adopted by the school directors calls for an expenditure of \$396,312, or \$7918 more than last year, and a tax of \$249,443, or \$1541 less than for 1933.

# STRESS MEMBERSHIP

Memberships for 1934 will be stressed at next Monday night's joint meeting of the American Legion and auxiliary at Fraternal temple. It was announced by King S. Bartlett, Capital Post membership chairman, following meeting of his committee last night. A program of entertainment is to be arranged.

# Prevention Is Better Than Cure

An opiate will dull periodic pain. But isn't it better to prevent the pain? Take Lydia E. Pinkham's Tablets three or four days before the expected discomfort and notice the difference. If you are a stubborn case, you may need to take these tablets regularly for a few months. Persistent use brings permanent relief. Clinical tests prove it.

No narcotics. No dizziness. No unpleasant after effects. Just little chocolate coated tablets that bring results. New size package—50¢ at all druggists.

### Criminal Insane Fugitive Group is Reduced to Five; few Clues

(Continued from page 1)

photographs sent by his wife. Hospital officers said they doubted this as each piece of mail or each package is carefully examined before it is delivered to the criminally insane ward.

The officers quoted Becker as saying that the work of cutting the cell bars took more than a week. The hacksaw was soaped, he said, and used in relays by Bowen, Carter and Welch. Williams, the attendant, was making his rounds at about 10 o'clock Sunday night when he was suddenly overpowered and slugged with his own club. Bowen, Carter and Welch, who had saved their way out of their cell and into the corridor to get at Williams, took the attendant's keys and released the other three inmates. They then made their way from the third story of the hospital to the rear of the building where they escaped. Williams soon recovered consciousness and gave the alarm.

Becker told the officers, they said, that the six fleeing men split up shortly after they left the hospital. State police, following Becker's arrest, were concentrating their search between Woodburn, 17 miles north of here, and Portland. They expressed the belief that Bowen and probably some of his companions would head for Portland and probably were already there.

HAYESVILLE, Oct. 9. — It is thought now that a man discovered prowling about the Burns Christofferson place about midnight Sunday was one of the six men who escaped from the state asylum. Christofferson chased the man around his house here and then toward Lake Labish before losing track of him.

Christofferson did not learn of the escape until late this afternoon, but as soon as he did, he notified Sheriff A. C. Burk, and the sheriff and his deputies came at once to search the territory.

Bowen, whom the officers said was one of the cunning and daring criminals ever housed in an institution in Oregon, has been arrested more than 30 times, identification records of the state police department revealed Monday.

He served terms in the Wisconsin and San Quentin penitentiaries in more than a dozen insane hospitals. He escaped from state hospitals in Washington, Nebraska, Missouri and Florida. Charles P. Pray, superintendent of state police, declared that Bowen was an exceedingly dangerous criminal and that he would resort to any crime to gain his end. Twelve years ago Bowen participated in the slaying of an attorney here.

Bowen and later was instrumental in promoting a plot to kill another hospital employe. Bowen was sent to the state hospital here after he had forged a number of checks in Portland.

Bowen served a term of one year in the Montana state penitentiary and was twice committed to state insane hospitals. The records do not divulge that any of the patients ever served time in the Oregon prison.

# "Floating Isle" Airline to Europe Planned

Map shows the probable location of the five "floating islands" Edward R. Armstrong, president of the Seadrome Ocean Dock Corp. of Wilmington, Del., plans to string across the Atlantic from New York to Vigo, Spain, as airplane refueling and repair stations, in the event present plans for a regular trans-Atlantic air service work out. Armstrong recently applied to the EPC for a \$30,000,000 loan to put his idea into operation. The "floating island" plan is interesting in view of the report that Colonel Charles A. Lindbergh has decided against a regular air route to Europe via Greenland and Iceland. The colonel and his wife recently made an exhaustive survey over that route with a view to determining the feasibility of a regular air passenger service.

have been smuggled into the criminal insane ward from the outside. The rules of the hospital provide for a search of the criminal insane cells twice weekly.

Williams suffered a serious abrasion on the left side of the head and numerous lacerations. Guards at the penitentiary, located nearly half a mile from the hospital, said they heard Williams call for help but thought it the wailing of a patient and paid no attention to it at the time.

Photographs and descriptions of the fugitives yesterday were sent to virtually all police officers on the Pacific coast.

Descriptions of the five inmates still at large last night are: Bowen, 42, height 5 ft. 9 1/2 in., weight 164, dark hair, gray eyes, wearing a gray suit and leather slippers.

Carter, 26, height 5 ft. 9 1/2 in., weight 143, brown hair, gray eyes, wearing dark gray worsted suit and hickory shirt.

Farrar, 44, height 5 ft. 6 in., weight 122, dark hair and blue eyes, wearing dark suit, hickory shirt and leather slippers.

Bausser, 53, height 5 ft. 7 in., weight 145, brown hair, gray eyes, wearing dungarees and leather slippers. Ex-convict.

# CONFERENCE HELD ON SESSION DATE

Governor Meier declared here Monday that he had not yet decided when the proposed special legislative session would be called.

He indicated that the date of the session might depend upon the outcome of a conference with Pierce Williams, representing the federal relief administrator, and Raymond Wilcox, chairman of the state relief committee, at the governor's home near Corbett last night.

Governor Meier Monday held a number of conferences with J. M. Devers, attorney for the state highway commission. These conferences were said to have dealt with the highway commission's participation in any relief program that may be launched during the coming winter.

# American Killed As Indians Take Warpath, Report

MEXICO, D. F., Oct. 9.—(AP)—Newspaper dispatches from Guadalajara tonight said an American, William Helmer Lane, and two Mexicans were killed Saturday near Palo Alto, Nayarit, by 43 Coras Indians staging a local political uprising.

The municipal president of the town of Huajilori was arrested, charged with instigating the uprising, and a strong detachment of soldiers was sent to round up the Indians.

The dispatches did not give Lane's home address nor indicate why he was killed. The American consulate here had no confirmation of the report.

Chest Colds ... Best treated without "dosing" VICKS VAPORUB

# SECOND ROUND IN TOURNAY SLATED

(Continued from page 1)

not complicated. Entries are by teams. Each pair plays throughout the evening. A different partner may be chosen for each evening. After each two hands one couple moves until all the hands in the duplicate boards have been played. Following popular request, Mrs. Quinn tonight will have previously dealt all the hands appearing in the boards. Scores will be announced tonight as soon after the tournament play is finished as possible. Miss Bette Harrell, associate of Mrs. Quinn, together with Mrs. Quinn, will assist in the conduct of the tournament.

A larger attendance is hoped for both at the beginners' and advanced classes. The former starts at 2 p. m. at the Marion; the latter at 5:30 p. m. Players who attended the opening class are expected to press themselves as delighted with Mrs. Quinn's personality and her instruction.

# Student Head at University Chef At Y Staff Feed

"Slim Jim" Burdett, Williamette university student body president and basketball star, will don cap and apron this morning to become head chef for the Y. M. C. A. hatters when that group of young men prepares and serves breakfast to the members of the staff of the city Y. Rumors were heard about the Y lobbies yesterday that breakfast would consist of grapefruit and coffee, but staff members were exhibiting no worry over the question. "You see," one of them said, "the hatters will have the same menu as we." The breakfast was scheduled for 6 a. m.

# TWO MOTORISTS FINED

Because it was all he had, Walter Walker, Portland motorist was released after paying \$4 on a \$5 fine imposed by Municipal Judge Poulson yesterday. Walker was arrested for speeding, Charles Snyder, 237 North Nob Hill street, arrested Sunday for speeding, paid a \$5 fine.

# POLISH CHIEF WEDS

WARSAW, Oct. 9.—(AP)—One of Poland's most touching romances will culminate tomorrow morning when the aging, grief-stricken president, Ignace Moscicki, takes as his wife Mary Dobrzanska, young divorcee whose life also had been crossed by the shadow of tragedy.

# SANTIAM LOOP IS MADE BY SIEGMUND

A party of Salem motorists successfully negotiated the loop over the North Santiam highway via Cascadia and the South Santiam highway last Saturday. County Engineer Hedda Swart was at the wheel and County Judge and Mrs. J. C. Siegmund went with him.

The party took the forest road from Fish Lake to Big Meadows. With the 3.9 miles to be graded next from the junction northwest on the North Santiam highway, this trip from Fish Lake to Big Meadows will be more pleasant next summer. The only detour then necessary will be about 11 miles from the end of the present McDougall job to Big Meadows. The road will probably not be opened clear through until this time next summer.

The party left Cascadia at 8 o'clock Saturday morning and reached McDougall's camp on the North Santiam at 4 o'clock in the afternoon. Seventeen miles of road out of Detroit is in excellent condition. Swart reports, and indicative of what the entire road will be within the next two years.

# FOOD AND GROCERY CODE IS ATTACKED

(Continued from page 1)

tall tobacco, candy, spices and imported foods.

Spokesmen for organizations of wholesale and retail distributors described the code as essential to "stabilization" of the distribution industry, and as the means of ending price-cutting which the farm administration is interested in stopping insofar as it believes this tends to depress prices paid to farmers.

With few exceptions, they praised the heart of the code provisions for requiring minimum mark-ups of 2 1/2 per cent over delivered cost in the case of wholesale and 7 1/2 per cent over delivered cost by retailers. But the provision that manufacturers should offer their goods for sale on the basis of open price quotations found no enthusiastic response from their spokesmen.

# Don't Trifle With Coughs

Don't let them get a strange hold. Fight germs quickly. Creomulsion combines the 7 best helps known to modern science. Powerful but harmless. Pleasant to take. No narcotics. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion.
