### AAA SHINING ITS AID TO DAIRYMEN

### Milk Marketing Agreements And Production Control Contained in Plans

With the wheat campaign now completed, Oregon so far as the signing of individual growers is concerned, chief current interest in developments under the agricultural adjustment act has shifted here in the Pacific northwest to efforts at bolstering the dairy industry so that returns to farmers will move up nearer pre-war parity, says the current review from the Oregon State college extension service.

The main program of betterment of the dairy situation is proceeding along the two general plans of trade agreements and possible production control. More milk marketing agreements are going into force every week, and those dealers reported as violating their provisions are being cited to show why their licenses should not be renewed.

The farm credit administration has also taken cognizance of the milk situation particularly in the northeastern states and, after making a survey of the marketing situation there, has blamed much of the distress on the non-cooperating dairymen who invalidate the efforts of the organized milk producers.

Dairymen of the entire country are being warned by Dr. Clyde L. King, chief of the dairy section of the AAA, that nothing can finally make prices advance to parity as long as more milk is being produced than people will use. He says that the heart of the marketing agreement, surplus purchases and the like, but calls on producers to consider production limitation, possibly 10 per cent, which limitation must also extend to butter substitutes.

With the completion of the emergency hog-purchasing plan, the AAA is moving on to a more permanent control program made necessary by the continued high production of hogs in the face of a decline of more than half in exports of pork. A reduction in corn acreage of as much as 20 per cent in 1934 is being considered.

### OREGON ONIONS ARE LIKED BY CHINESE

PORTLAND, Oct. 10.—(AP)—The taste for Oregon onions is growing on the Chinese. Last year they purchased in considerable quantity from this state when prices were low. Apparently the taste has lingered, for the report from the Chinese consul in Portland indicates that the demand for Oregon onions has been bought for an interest said to be operating for Chinese and Philippine accounts. Growers were paid 75 cents a cential with sacks furnished.

The Journal says the latest report from the Chinese consul in Portland indicates that the demand for Oregon onions has been bought for an interest said to be operating for Chinese and Philippine accounts. Growers were paid 75 cents a cential with sacks furnished.

### ISLANDERS HARVEST GIANT VEGETABLES

GRAND ISLAND, Oct. 10.—Dale Fowler, local market gardener, holds the record for raising large squashes. He recently marketed a banana squash which was 36 inches in diameter and weighed 45 pounds.

A twin muskmelon was picked in the melon patch on the Adelbert Smith farm during the past week. This was the first one found this season, although last year three pairs of twin melons were picked on the same farm.

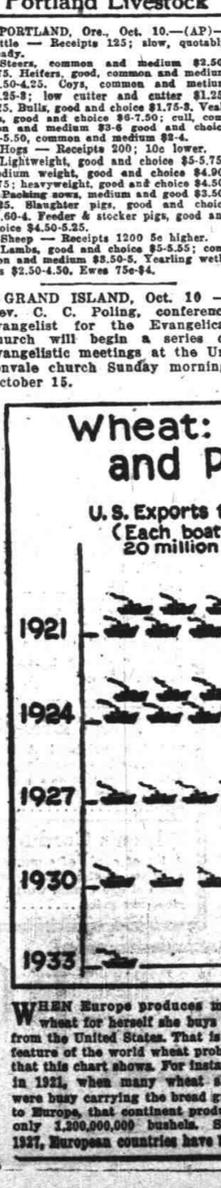

Melon growers of the district report a very heavy loss among the melons this year due to the extremely rainy season.

The small amount of clover seed in the community was successfully hulled during the past week and this week will find the work of hilling the silos in the district practically completed.
