### Farmers' Union News

BETHEL Nov. 20.—A large Farmer union pool is being arranged in Columbia, Polk and Marion counties for the purchase of stumping powder. A very attractive price has been secured.

ested from all surrounding locals are urged to be present.

AMITY, Nov. 20.—This country in the past has been handled by 20 per cent of the people, but before long all the people will be directing the country destiny, Earl Wright, chairman of the NRA at McMinnville, told the local Farmer union gathering Friday night.

Wright said 20,000 men would be put to work in Oregon the last of this month. He declared a billion and a half dollars have been used to finance the farmers and pointed out that citizens should be satisfied in paying more for things now, with prospects of

everything being better in a short time. He pointed out that milk companies in McMinnville as well as other towns are spending several thousand dollars to improve their plants.

This local went on record as favoring a maximum fee collectable on any mortgage foreclosure at \$25 for the first \$5000 or fraction thereof involved and \$5 per thousand for each successive \$1000.

The union has installed two big gas tanks at McMinnville and are now ready to start handling gas for their members. They have been receiving bids from several companies.
