EXCHANGE TRADING OF CHEESE BLOCKED

PORTLAND, Nov. 20. (AP)—End of the farmers' strike in the west which practically put an end to exchange trading at Wisconsin points, appeared to have made as yet little difference in the cheese trade there.

Trade in butter continued more or less steady but under manipulative influence of government buying. Prices were held practically unchanged in all leading markets.

Prices were somewhat mixed in the market for eggs here with more persistent dumping of storage goods.

There continued a rather good trade in country killed meats with beef continued as the only exception. The latter was dull. Full prices were being realized in other lines.

Liberal sales of cauliflower continued in carlots to practically all sections of the country with prices held steady around 61c. F. O. B. advises the Portland Cauliflower association.

Further advance in the celery price has been forced for carlot shipments with the latest trade around \$1.40 half crate. Demand is brisk from various sections of the country.

Very slow local trading was reported in apples as a result of liberal offerings and much poor to indifferent quality and packs. Export situation was still rather good.
