**Adolph**—To Mr. and Mrs. David S. Adolph, 835 Saginaw street, a boy, Robert David, born November 3, at Salem General hospital.

**Hit by Train**—William E. Patton, 279 Chemeketa street, not only had the unerring experience of having his automobile hit by a Southern Pacific freight train but he also was arrested by city police yesterday afternoon. He escaped injury although his car was shoved around 120 feet down the tracks by the train which struck it at Commercial and Union streets. The car was not badly damaged. Then police stepped in and cited him to appear in municipal court for not having a driving license.

**School Speeders Caught**—State police on special patrol yesterday arrested two more motorists on charges of speeding past the Salem Heights school grounds. They were William Norris, route three, who later pleaded not guilty in justice court here and was ordered to return for trial at 10 a. m. Friday, and Samuel B. Davidson, route three, who was cited to appear in justice court here today. The Salem Heights school board and numerous residents of the district have recently been sharply protesting motorists' making a speedway of the road past the school.

# CHRISTIAN SCIENCE LECTURER IS HEARD

## "The Gospel of a Supreme Affection for Good" is Outlined by Rowell

James G. Rowell, C. S. of Kansas City, Missouri, lectured last night at the First Church of Christ, Scientist, on the subject, "Christian Science: The Gospel of a Supreme Affection for Good." The following is a summary of the lecture:

Christian Science reveals that God, divine Mind, is the only creator and that His creation is like Him; that is, spiritual, harmonious, and eternal, the Kingdom of heaven. It reveals that the human mind, the supposed ruler of the kingdom of this world, is not an originator; that it merely counterfeits the creation of the one perfect, divine Mind; and that every material object and concept, every "cherished" belief and practice (Science and Health, p. 141), but a counterfeit of an opposite, a dream, a perverted sense of some real, eternal idea or ideal in divine Mind. Christian Science shows to humanity the way whereby false, distorted, mortal beliefs or concepts may be translated back into their better original; in other words, Christian Science shows the way by which mortals may exchange their fleeting, false, and suffering concepts for the kingdom of heaven, the reign and rule of unchanging, divine intelligence.

Christian Science brings to light the fact that there is a spiritual supply present for every human need, a solution through spiritual understanding for every conceivable problem; in other words, a divine law present and available for all who strive to understand it. From her healing, Mrs. Eddy learned that she had had but one real need all her life, and that was to understand spiritually the nature of God and His availability to mankind through His laws. She saw that the answer to this one great need had met all her needs and would meet all the needs of others. Therefore, Mrs. Eddy set herself the task of revealing to all mankind the nature of God and His ever operative laws, and of explaining just how the individual may consciously and scientifically benefit by their operation. These revealed laws of God Mrs. Eddy named Christian Science.

Many years later, after she had tested and verified them, Mrs. Eddy gave these laws to the world in her book, "Science and Health with Key to the Scriptures." This textbook of Christian Science. In this book are found, on every page, careful scientific rules, which, when understood, obeyed, and practiced, bring most desirable results; better morals, better health, better business, happier and more useful lives. Let us open this book. Gratitude compels us to do it reverently, for through the truths contained within its covers men and women have been restored to purity and health, businesses have been reestablished on the basis of service to mankind, broken homes have been made happy again, and life has been made worth living to thousands of our fellow creatures.

Get a copy of this book; own one of your own; you will realize more and more how precious it is. Study it in connection with the Book of books, the Bible; practice what you learn in your study. The truth these two books contain will meet your human need. Let us turn, for instance, to page 248 of Science and Health. Remember, now, we are looking for rules to be used in practice. We read, "Material beliefs must be expelled to make room for spiritual understanding." Here we have a most important rule for solving our problems. On page 201 of the same book we read with line 17, we find: "The way to extract error from mortal mind is to pour in truth through flood-tides of Love." Now let us do just what we are told to do. We must follow our rule carefully. Let us seek the specific truth with which to replace the lie we may be entertaining. This truth may be found by reversing the lie which has deceived us. On page 120 we find, "Science reverses the false testimony of the physical senses, and by this reversal mortals arrive at the fundamental facts of being. The truth we have found, strong with divine Love, will heal us. But if we do not find our freedom instantly, let us follow the rule given on page 417: "Maintain the facts of Christian Science,—that Spirit is God, and therefore cannot be sick; and what is termed matter cannot be sick; that all causation is Mind, acting through spiritual law. Then hold your ground with the unshaken understanding of Truth and Love, and you will win."

On every page of this remarkable book the sincere seeker will find stated the divine laws of life and rules for their establishment in daily living. He will find, too, the false laws of the human mind—exposed and rules for the reduction of them to their

native nothingness. Search the pages of Science and Health for these laws and rules of Christian Science practice. Mrs. Eddy does not always say, "Do this," or "Avoid that," but her book makes clear that a desire for spiritual growth and an earnest affection for good will enable the seeker to find these laws and rules. Then, having found them, he does well who puts them into practice.

One can readily see what was wrong in the case of the woman who complained that she had read Science and Health through five times and yet had not received her tongue for healing. A wise man explained: "You both have cookbooks in your possession which contain recipes for many delectable cakes. We may read a cake recipe through five or even fifty times, but not until we have done what the recipe demands, may we reasonably expect to be able to have any cake to eat." Is it reasonable to expect that in the case of the woman who complained that she had read Science and Health through five times and yet had not received her tongue for healing, that she should expect to be able to have any cake to eat? Is it reasonable to expect that in the case of the woman who complained that she had read Science and Health through five times and yet had not received her tongue for healing, that she should expect to be able to have any cake to eat?

Sometimes, a caught napping, even the most earnest Christian practicing just how the individual may consciously and scientifically benefit by their operation. These revealed laws of God Mrs. Eddy named Christian Science.

Dr. Powers will report to the meeting on the progress being made with existing Oregon reclamation projects, including the culling of 45,000 acres of inferior lands from the projects. This, he says, is in line with the federal policy of developing the best farm lands first, and retiring submarginal areas from production.

**GIVE DRAMA FRIDAY**  
JEFFERSON, Nov. 21.—The Christian Endeavor of the Christian church will present a three-act comedy drama, "Deacon Dubbs," Friday night, November 24, at the Masonic hall. The cast is composed of Harvey Thurston, Leo Weddie, Kenneth Seipp, Merline Thurston, John Wright, Margaret Goltz, Elancho Main, Mary Main, Frances Gatchell and Mina Wright.

**DAHL RETURNS**  
SILVERTON, Nov. 21.—Arthur Dahl, Silverton's chief of police, returned to his duties Monday following a forced vacation of several weeks. Mr. Dahl was injured early in October and Lloyd Kennedy, otherwise night officer, has been acting as chief.

**OREGON CITY, Nov. 21.**—Herman Stuve of Canby is the first farmer in Oregon to grow Marshall strawberry plants sufficiently free from crinkle disease to be eligible for certification. Mr. Stuve obtained his plants at Lynden, Wn., and after having his planting carefully rogued out in 1932 and 1933 by O. T. McWhorter, O. S. C. extension horticulturist and S. M. Zeller, plant pathologist of the experiment station, was able to show less than two per cent disease this year. Crinkle disease is caused by a virus in the juices of affected strawberry plants and can be controlled only by elimination of the infected plants in the field. It is carried from plant to plant by insects and often causes a reduction of one-third to one-half the yield in strawberry plantings.

# INDICT CAMPBELL ON THEFT CHARGE

## One Secret Indictment and Four Not True Bills Found by Jurors

Two indictments, one of which was secret, and four not true bills, were returned by the county grand jury to Judge L. H. McMahon in circuit court yesterday. The defendant named in the secret indictment has not been apprehended, county authorities reported.

Jack Campbell, operator of the Checkerboard service station near Gervais, is charged in the one secret indictment made public with the theft of a slot machine from Ross B. Clark and Charles Pabel, owners of the Silver Eagle tavern. The indictment against Campbell follows the arrest of Harry Craig, who recently pleaded guilty to a similar indictment. Campbell is charged with being in the automobile with Craig at the time of the theft.

The four not true bills, returned by the grand jury clear seven defendants of charges which had been lodged against them during the last several weeks. All of the defendants were ordered released. Juan Ancheta, Phil Teolo and George Namabo were freed by the grand jury of charges of burglary not in a dwelling for the alleged theft of a suitcase, saxophone and \$32 from Joe F. Tadina last month.

George Duffield and George Hyslop, charged with larceny following the theft of 500 grain sacks from H. Steinbock were released after the return of the grand jury not true bill. Other not true bills were returned in favor of E. O. Martin, charged with assault and battery on Carl W. Benson last September, and Nick Babe, charged with trespassing on property owned by Pauline M. and C. E. McGuire, near Hubbard.

**OREGON MEN WILL ATTEND BOISE MEET**  
CORVALLIS, Nov. 21.—Many Oregon delegates are expected to attend the coming session of the National Reclamation association scheduled to meet in Boise, Monday, November 27, says Dr. W. L. Powers, Corvallis secretary of the Oregon Reclamation congress.

Marshall N. Dana of Portland, president of the national body, expects the Boise meeting to be the most important gathering devoted to reclamation yet held in the west. Continuance of reclamation as a national policy in the face of widespread attack will be the theme of the first considerations of the gathering, he says.

## When Collars Were High, Mustaches Long RECALL 'AIRLY' DAYS

"Tales of the airy days," before the "new" postoffice building was covered with ivy, when the space now utilized by annex and parking space for trucks and automobiles was lined with horses and buggies, when men wore collars nearly to their ears and mustaches whose flowing ends nearly touched those collars were recalled recently by postoffice employes. James E. (Jim) Albert, veteran rural carrier, inspired those recollections when he displayed a collection of old pictures ranging from 1888 to 1906 and including in the groups photographed many postal employes and other well-known Salem folk.

The 1888 photo, a class and its teacher, was taken on the steps of the Washington school building. Warner Foster, looking very much like himself today, two Alphonse "Boys", Mr. Albert and others prominent in Salem life today are shown.

The following hand, which ran in The Oregon Statesman Sunday, November 19, was played by Mrs. Ely Curbertson in an eastern tournament. Mrs. William H. Quinn, Curbertson associate teacher, explains the correct bidding and play of the hand:

**WESTERN NUT MEN TO MEET SHORTLY**  
CORVALLIS, Nov. 21.—What promises to be the most important convention of the Western Nut Growers association in years is scheduled for McMinnville December 6 and 7, when the 19th annual meeting will be held. C. E. Schuster, secretary of the association and federal specialist at Oregon State college, has received the tentative promise of W. E. Goodspeed, manager of the new coastwise nut marketing agency, to attend this meeting. Definite word as to this is expected soon. Goodspeed heads the newly formed western association through which the marketing agreement under the A. A. A. has been put into effect.

## PICKUP IS NOTICED

**Due to NRA and Buy-Now is Claim of Cooley; All Coast Profiting**  
Surprising improvements in the business conditions over the country are recorded in the last month, due chiefly to NRA and Buy-Now campaigns in central cities, Ralph Cooley, chairman of the Salem Buy-Now campaign, reports.

The same improvement is found in the businesses of local retailers who go out after the franchise, Cooley declares. As high as 30 per cent increase in business the past four weeks over the corresponding period a year ago is reported by local firms, with the step-up declared due to the NRA efforts.

**Neighboring Groups Assist With Program**  
AMITY, Nov. 21.—The American Legion and the auxiliary sponsored a program in the high school gym Friday night. It consisted of talent from various localities. The auxiliary from Newberg had prepared a program, several interesting selections were played by the "Haywire orchestra" from Salem, several readings were given, one being by George Fenrose, and a group of students from Linfield college, McMinnville, gave two short skits, vocal solos and a ventriloquist stant. The Amity high school orchestra, led by Miss Gladys Burgess, gave several numbers. The main talk was by the American Legion commander of Portland.
