UPTON SPEAKS FOR CONTROL OF LIQUOR

Controlled liquor sales, as directed under proposed legislation drafted by the so called wet element, is preferable to the "prohibition drinking" which has cropped up with the passage of the dry law, Senator Jay Upton told members of the Salem Kiwanis club yesterday.

"No matter what type of liquor control legislation is passed by the solons this year it will have to be amended next year," Senator Upton said. "Due to the fact that the drys are unyielding legislation which they secured, would be the object of serious fights regardless of the necessity for such changes."

Senator Upton declared he was a believer in the doctrine of President Grover Cleveland, that it was the duty of the people to support the government and not the duty of the government to support the people. There should be some provision, however, for the care of old persons and widows with small children, he said.

Senator Upton spoke to the Kiwanians instead of President Kiddle who was unable to attend the meeting due to the pressure of business.
