Make These Smart Purses

PURSES PATTERNS 602 AND 603

A purse, though just an accessory, can make or spoil a woman's appearance. Naturally every well-dressed woman longs for a variety of bags to give her the right choice for both the occasion and the costume. This season purses are smart according to their form. The envelope purse has rebelled at a shoe envelope effect and goes into points that are decidedly graceful. The flap, though, limits itself in size and no longer covers the entire front of the bag. This bag, pattern 602, can be made for daytime or more formal wear according to the material used. Tweed or other light woolen material, suede, fallie, silk, velvet or an ornate material interwoven with metallic threads, all are effective and the bag is very simple to make.

Pattern 603 goes in for feminine softness. The row of little pleats at each side give the purse a fullness that makes it decidedly attractive in such materials as satin, velvet, fallie or a soft woolen material, all of which lend themselves to a little drapery.

Send 10 cents for each pattern — 20 cents for both to The Oregon Statesman Needlecraft, Dept. 215 South Commercial street, Salem.

Mr. and Mrs. C. E. Garrett entertained all their children and grandchildren over the Thanksgiving holidays for the first time in seven years for a complete reunion. Present were Mr. and Mrs. George Wagonblast and children, Earl Eldon and Robert from The Dalles, Mr. and Mrs. F. E. Neiswander and children, Lee, Oma Jean and Frank, Jr., Mr. and Mrs. W. A. Garrett and daughter Nadra, Mr. and Mrs. H. J. Garrett and children, Loreta and Glenn, and Bob Garrett.

A "Bird's Eye View" of the workings of the W. C. T. U. will be given at the regular meeting of the Union to be held Tuesday afternoon beginning at 2 o'clock. Each department director will tell of the part her department plays in this task, speaking for just two minutes. The address of the day will be given by Mrs. Alice Thomas, state treasurer. Tea will be served at the close of the afternoon program.

PUBLIC ISSUE SEEN IN BUS-TRUCK LAW

Transportation Groups Not So Vivaly Affected as Public Says McBee

Adjustment of the present truck and bus bill must be made in the interest of the general public and not any transportation group, members of the legislative committee of the Oregon Farmer union reported last night through L. H. McBee, chairman of the unit.

"Approximately one third of the farm produce of the state is transported by farm owned trucks, the remainder by contract haulers," McBee said last night. "If the contract hauler is placed under the Public Service commission as provided for in the present bus and truck law, a costly bear-in-gratitude in its enforcement, is created. We contend the fees are forthcoming from the tonnage moved."

"The increase in freight rates is equivalent to an additional tax on the farmer's gross income. It has been shown the farmer not only pays the freight on everything he sells but also on everything he buys. Under modern conditions transportation is absolutely essential to the exchange of products; it is the controlling factor in maintaining the balanced relation between production and consumption.

"Any barrier or obstruction in the channels of transportation must, to that extent, arrest or reduce the exchange of commodities between producer and consumer and correspondingly lower the purchasing power of the producer."

Differential in Milk Prices is Plea of Stores

Representatives of the chain stores appeared before the senate agricultural committee Monday and urged that they be allowed a differential of two cents in the price of milk in comparison to the price charged for milk delivered at homes.
