A gift of silver was presented to the president. More than an hour of dancing was enjoyed by the members at the close of the program.

Scarlet Fever Reported One new case of scarlet fever has been reported in this district. Marie Schatz is the victim, but she is getting along satisfactorily.

Fifty couples attended the dance and card party given by the Orchid social club of the Molalla Eastern Star Thursday night at the Odd Fellows' hall. About \$10 was cleared. Refreshments were free.

### ZONE COMMISSION MEETING DELAYED

With two petitions for zone changes and two for street vacations facing it, the city planning and zoning commission was unable to act last night for want of a quorum. The few commissioners who met at the agreed time, after waiting for an hour, adjourned without setting a date for another meeting.

Changes of zone from class two residential to class one residential were sought by Leo Page and others for the west half of the block bounded by Mission, Saginaw, Kearney and Commercial streets, and by D. C. Minto and others for the east half of the former. In the first named petition, property in mid-block owned by Dr. G. E. Prime is omitted.

Vacation of the north end of 13th street, a portion of A street and of the platting but unimproved streets in Geiger's addition, constituting the Leslie high school grounds, is sought by the school board to make way for CWA projects.

The catkins on the fibert trees are "way out" with strawberries which are in bloom, tame ones in beds, and Sunday bees were reported by one farmer as carrying in pollen.

The Epworth league is giving a Christmas party in the community hall Friday night with all young folks of the community invited. Josephine Tandy and Helen Gossner are in charge.

Mrs. George Lemmon of Toledo, a daughter of Mr. and Mrs. A. M. Griffin, was a visitor at the Griffin home last week. She came to see her father, who has been very poorly lately. When she returned home she found that a terrific wind storm had uprooted two large apple trees and overturned their smokehouse and had done considerable other damage at their place.

Surveying for Cut Harry J. Carter has been surveying for a change in the end of Rosemont avenue, where it ascends the terrace connecting with the short strip of Piedmont avenue that goes into Cascade drive. This short stretch is too steep and the new survey plans to eliminate the steep stretch and give a winding drive with a good grade that there may be a better connection between the hill and the flat. The work is being done under the supervision of William L. LaDue, city engineer, and when the lake and slough are drained, this will make a great improvement.

Council Votes Plan At an adjourned meeting of the city council called to consider the use of C. W. A. funds for improvement of streets and drives to the hill, approval was voted to do this work and approval was also given the drainage project now under way at the foot of the terrace and to the rear of the city. These storms and heavy rainfall are complicating the progress of the drainage project.
