Pattern

PATTERN 1625 By ANNE ADAMS Home frocks are no longer anything like those worn a few years ago-the mode demands models that are attractive, as well as neat, practical and comfortable, and in which one may easily greet unexpected visitors. This model is simply divine! Notice that the yoke and sleeves are cut in one, handy pockets are present, and the waistline is adjustable to every type of figure. Ruffing and buttons make a dainty trim. So few parts to put together-they spell success to even the most inexperienced sewer! We know you'll use this pattern again and

Pattern 1625 is available in sizes 14, 16, 18, 20, 32, 34, 36, 38, 40, 42 and 44. Size 16 takes 314 yards 36 inch fabric. Illustrated step-by-step sewing instructions included.

Seek Decision On Ownership Of Oats, Wheat

Asking the court to determine the interest of respective parties to 1592 bushels of oats and 125 bushels of wheat, John and Mary A. Stuhr yesterday filed their answer in circuit court here to the complaint recently filed by Gertrude J. M. Page. Defendants claim that 1242 bushels of the oats were paid to the Prudential Insurance Company of America on representation by the latter's agents that the company was entitled to a year's rent on the farm the Stuhrs were occupying. They allege the company said the pay ry Flag, Mrs. George Alderin, open December 19 in the Nelson dition and 125 bushels of wheat would satisfy its claim for a year's

> Defendants contend they did not know that plaintiff had any interest in the farm, thinking a foreclosure action brought by the Prudential had wiped out such claim. The court is asked to divide the oats and wheat fairly between the plaintiff in the pending case and the insurance company.
