

JACKSON CO. GROUP SUPPORTS SALES TAX

Letters supporting a state sales tax and urging no referendum on the tax passed by the special session, are being sent throughout the state this week by the Jackson

County Farmers' & Home Owners association. The letter is signed by A. C. Hubbard, chairman, and C. C. Hoover, secretary. In part it follows: "While it is of the greatest importance to protect our common schools from having to close their doors, it is of no less importance that we relieve our home owners, farmers, and other property taxpayers from a complete collapse. If our present property tax sys-

tem, which is more than 40 per cent delinquent now, does collapse not only the schools but all other functions of government are sunk. As the matter now stands we home owners, farmers, and all property tax payers bear more than 97 per cent of the whole cost of the elementary and high schools. More than half of the people who send their children to our schools own no taxable property and consequently pay nothing at all toward the support of the schools. From 40 per cent to 45 per cent of our total taxes are for schools only. We do not ask that property owners be excused from supporting schools. We are quite willing that they should still bear by far the bigger end of the burden, but in these times when property is almost a liability and when we are sinking under the load; when we are 40 per cent delinquent on our taxes and cannot even borrow the money with which to pay them, we think it is no more than fair that the present big group of non tax payers should contribute a little something to school support. This sales tax bill offers us, we think, the first opportunity we have had for shifting a little of our tax burden to other shoulders. It will relieve the property tax we now pay for schools at least one third. "Living near the California line as we do, we are watching a similar sales tax operate in that state. Last summer when it was first put on it was quite unpopular, but when tax paying time came this fall and people saw that their tax statements had actually been cut from 30 per cent to 40 per cent almost a complete reversal of sentiment toward it came about in a few weeks. The California rate is 2 1/2 per cent while Oregon's proposed rate is 1 1/2 per cent, but even 1 1/2 per cent will help considerably. "Our plea to you is simply this: Do not permit any hasty conclusions to be formed relative to the bill, or any hasty action to be taken until you have had full opportunity to study the bill and how it will apply to the relief of real property and also the relief of the schools. This bill is not at all the same thing that was voted down last July, either in its application or its purpose."

ENTERS JUNIOR COLLEGE SCIO, Dec. 28. — Miss Ciola Gallegly left Tuesday night for Porterville, Cal., to enter junior college. She completed high school courses there in 1932, later attending Oregon Normal school at Monmouth. She is the daughter of F. A. Gallegly, principal of the Scio high school.
