Social Sciences Merit Emphasis Speaker Claims

PORTLAND, Dec. 29. (AP)—A belief that unless there is a shift of emphasis in instruction in the secondary schools of this country, tending more to the social than to the physical sciences, the social order will fall, was expressed by Dr. F. W. Hart, professor of education at the University of California, in his address before the Oregon State Teachers association here today.

Dr. Norman F. Coleman, president of Reed college, spoke on "The Will to Peace." The teachers held department meetings before hearing the addresses. The three-day annual convention was concluded today.

19 Men Trapped In Mine Cave-In Finally Rescued

GRASS VALLEY, Cal., Dec. 29. (AP)—Rescued after being trapped for more than seven hours in a caved drift on the 1000-foot level of the Idaho-Maryland mine here, 19 men of the night shift were reported none the worse for the experience here today.

The rescue was effected by a relief crew after the trapped men had themselves removed half of the 15 feet of caved rock. Safety for the men was credited to the fact the air pipes along the drift continued in serving despite the cave-in.

MILK PRODUCERS' PLEA EXPRESSED

buter takes out his part of the remaining 8 cents, taking enough to give him a margin, and he gives what is left to the producer. . . . The farmer is the goat. He has always got what was left after others have taken their cuts.

"We producers ask only for fair proportioning of the ultimate price."

Several speakers, including Tom Sweeney, representing the American Legion, asked that the price of milk to the consumer not be increased.

J. D. Mickie of Salem, executive secretary of the board, also spoke.

CENSURE OF TRUCK MEN IS EXPLAINED

Salem local No. 1 of the Truck Owners' and Farmers' Protective association in their meeting Thursday night did not vote to condemn the Commercial Truck Owners' association for including the name "Truck Owners' and Farmers' Protective association" in its articles of incorporation, as was stated in Friday morning's Statesman, Tom Wood, financial secretary of the local, said last night.

The statement given out by members of the association was in error, he said, the condemnation being for a small group of the Commercial Truck Owners' group who filed articles of incorporation under the name already in use here and elsewhere throughout the state.

Wood said cooperative gas stations would be opened within the next few weeks in other valley towns and if sufficient membership were secured here proposed such a station for Salem shortly. The statement was given out Thursday night that the local had opposed selling of gasoline on a cooperative basis.

Livestock Credit Needs Discussed

Phillips of Baker, president of the Oregon Wood Growers association, and Herman Oliver of John Day, president of the Oregon Cattle and Horse Raisers association. The two met with representatives of livestock associations of the state yesterday.
