

### WALDO HILLS CLUB TO PRESENT PLAY

#### Kellerhals Recovering From Injuries Sustained in Kick by Cow

WALDO HILLS, Jan. 6. — A veritable cloud burst visited this section at 7:15 Wednesday morning. Water was over the road in a number of places.

Two hard peals of thunder with the accompanying lightning made one think he was in the east. A fuse was burned out in the transformer to deprive the Edison Comstock and Frank Egan homes of light and power for three hours.

Mrs. B. O. Longsdorf, prominent turkey grower of the Evergreen district, spent the New Year holidays with her uncle and aunt, Mr. and Mrs. C. Scott Reynolds of Lebanon. She returned Wednesday and reported no storm there but evidence of heavy rainfall as she neared Salem and Silverton.

The play committee of the Waldo Hills club met Wednesday night with Mrs. Edson Comstock. They selected a group of plays to look over. The club hopes to present a play early in the spring. Present were Mrs. J. W. Goodknecht, Miss Edna and Helen Goodknecht and Frank S. Bowers.

The December meeting of the Waldo Hills club has been postponed from Friday January 12 to Saturday, January 13. On this latter date the Silverton high school dramatic club under the direction of Guy De Lay, will present "Mama's Baby Boy," sponsored by the Silverton chamber of commerce. Lunch of sandwiches, cake and coffee will be served, and will members note that these players will be guests of the club and bring table service accordingly.

E. Kellerhals, who was kicked by a cow at Christmas time, is much improved. A form of rheumatism developed from the injury and kept him in bed for a time. Early this week he was able to be out of doors.

### Grass Grows Half Inch in Two Days, Says This Woman

LIBERTY, Jan. 6. — In sharp contrast to last winter's frozen vegetation after the December cold spell, in this winter's abounding vegetation. The rapid growth of grass was clearly demonstrated though inadvertently, when Mrs. P. G. Judd Wednesday took up a washed flour sack she had spread to bleach on the lawn. She found the lawn grass had grown through the material and attained a growth of one-half inch over that during the two-day period.

Thursday she gathered cabbage, carrots, turnips and beets from the garden, all in fine condition. Other people are also using some fresh vegetables from the ground. Peas planted by Mr. Foster and grown to six or eight inches have suffered from too much rain and turned yellow, though they still may bloom and bear.

### STUDENT READING IS MORE GENERAL

High school students here are making greater use of library privileges than ever before the December, 1933, report of Alta Kerahner, head of the city's school library system indicates. With a decreased enrollment at Salem high school an increase in the circulation of books there was noted with a daily average of nine more in 1933 than during the same month of 1932. Total circulation figures reported are 2245 for December, 1933, as compared with 2224 for December, 1932. Not included are the 239 magazines circulated or the 25 pictures. December, 1932, had only 16 school days as compared with 17 in 1933.

Through the public library last December, 15 books were secured for student use while \$3 were borrowed from the state library.

At Parrish junior high school circulation was greater than that at Salem high with double the number of students. Parrish library circulation was 2338, while Leslie junior high school library's circulation was 1908. In both instances a small decrease in circulation was noted over the long or school month of December, 1932.

If senior high school students borrow less books than their junior high brethren the explanation may lie in the fact that they find it more expensive for senior high school students paid fines totaling \$5.01 during the last month. The Parrish library garnered only \$2.50 from the same source and Leslie only \$1.60. In spite of expenditures for new books, postage and express and mending supplies the petty cash balance grew during December from \$15 to \$16.65.
