# The Center Leaves have the finest Tobacco Quality

that's why only center leaves are used in Luckies

The first thing people see and like about Luckies is how round and firm they are. The tobacco doesn't spill out and there are no loose ends to cling to lips. That's because we pack each and every Lucky full to the brim with long, even strands of the finest Turkish and domestic tobaccos—the only center leaves. Not the top leaves—because, those are under-developed.

Not the bottom leaves—because those are inferior in quality. We use only the center leaves—because they are the mildest and fully ripe for perfect smoking. That's why Luckies always draw easily, burn evenly—and are always mild and smooth. So smoke a Lucky, a fully packed cigarette. And remember, "It's toasted"—for throat protection—for finer taste.
