Wool Receipts At Boston Jump In Past Week

BOSTON, Jan. 15.—(P)—(U. S. Dept. Agr.)—Wool prices in the Boston market were quoted unchanged from last week but showed a hardening tendency as inquiries broadened and occasional buyers made larger purchases. Recent increases in deliveries of wool tops indicate some pickup in wool manufacturing.

Estimated receipts of domestic wool at Boston, reported by the Boston grain and flour exchange during week ending Jan. 13, amounted to 277,000 pounds compared with 129,000 during the previous week.

TRADING TONE OF BUTTER IS GOOD

PORTLAND, Jan. 15.—(P)—Good trading tone continued in the market for butter here with a like condition suggested along the coast. The trade was demanding morning establishment of prices to overcome present deferred quotations which have been high.

At the new low price set by the local co-ops, the market for eggs was generally steady with an active tone although outsiders were reported as underselling in Portland.

Market for cheese reflected a better condition all through the country. Practically no further advances were suggested in the price at leading points; most of the exchanges quoting values around the recent advanced mark.

Strong tone was held for the week's opening by the turkey market despite recent suggestions that values would recede here quickly. Demand remained good for carload lots to go east into store.

With light weight hens about holding their own at recent prices and heavy stuff firm along with broilers, the market for live chickens indicated a somewhat mixed tone.

Country killed meat markets were holding steady despite the liberal supplies that arrived last week. Improvement in beef here is a leading feature.

REVISION OF GRAIN STANDARDS TALKED

Proposed revisions of federal standards for white wheat, barley and oats will be discussed at the public hearing, one of a series on the coast, in Portland January 26, at the Portland Merchants exchange. B. W. Whitlock, in charge of Pacific coast headquarters of federal grain supervision, will conduct the hearings.

Among the proposed wheat changes are suggestions for two sub-classes, extra soft white and Pacific hard white, also inclusion of musty and sour wheat in sample grade and elimination of moisture as a factor in determining numerical grades.

For barley, the chief proposal is eliminating of test weight per bushel as a factor in determining numerical grade, and in lieu thereof adoption of a special grade for test weight whereby the test weight per bushel in terms of whole pounds would be included in the grade designation.

Proposed revisions in the oats standards would give definite recognition to the fact that oats produced in the intermountain and far western states are normally of heavier test weight quality than those in eastern and Rocky Mountain sections.

REX WARREN GETS ASSISTANT'S JOB

AMITY, Jan. 15.—The corn-hog program now being put in operation in Yamhill county has made additional work in connection with the agricultural adjustment act and has resulted in adding Rex Warren as assistant county agent. Upon recommendation of F. L. Ballard, state county agent leader, funds have been provided to the County of Yamhill. Mr. Warren may have the assistant for at least six months.

The additional service is provided without cost to Yamhill county in recognition of the increased work resulting from the corn and hog reduction program.

Mr. Warren has been on the job a little more than a week and he comes to the county well recommended for the position. He is a graduate of Utah State college and recently did graduate work at Oregon State college in the farm crops department.

With the increased work due to the AAA, Mr. Warren will also help Mr. White with the general work in the office and county. The new assistant will also take over 4-H club work.

EGG MEN GLOOMY AS PRICES DROP HERE

The egg market brought more gloom to poultrymen Monday, with another two-cent reduction in prices. Extras are now quoted at an even cent each to the farmer, and mediums are nine cents lower, at 9 cents a dozen.

NEW YORK, Jan. 15.—(P)—Financial markets reacted with emphatic strength today to President Roosevelt's proposals for a dollar of 50 to 60 per cent of its gold parity, nationalization of monetary gold and establishment of a two billion equalization fund.

Favorable shares on the New York stock exchange showed general net gains of about 2 to more than 6 points. Chicago wheat climbed 4 cents a bushel, New York cotton advanced \$1.90 to \$2.30 a bale net, while the bond market's response was vigorous. Turnover in all markets was large.

Buying in stocks was broadly distributed. Steels, motors, chemicals and rails were notably strong. U. S. Steel, Bethlehem, National Steel, Chrysler, Nash, General Motors, New York Central, Pennsylvania, Santa Fe, Baltimore & Ohio and Illinois Central jumped roughly 2 to more than 4 points; Allied Chemical had a net gain of 6 1/2, Du Pont a point less. Utilities lost ground. Leadership from American Telephone, up 5 net as president Gifford reported an improvement in business. Consolidated Gas and Public Service of New Jersey improved 3 or so; in the same general range were American Can, Westinghouse and U. S. Smelting. Sales totaled 3,745,000 shares, the largest since last July.

Pupils Buy Poults; Many Farmers Line Up For Sales Tax

AMITY, Jan. 15.—Many poultrymen in this district and high school students interested in poultry are beginning to place orders for baby chicks. Several thousand chicks are reported to be bought by Future Farmer students of the high school. Poults orders are also being pooled and it is expected that in a few days that these orders will be placed with some reliable breeder.

Although the Yamhill County Farmers' Union went on record last Saturday as opposing the sales tax, many farmers in the Amity union high school district are in favor of it, not only because it will help the schools but also because it will help reduce the present property tax.
