### Preferred Gets Paper Mill Vote At Annual Meet

The annual meeting of the shareholders of the Oregon Pulp & Paper company has been called at the home office here at 10:30 a. m. Thursday, January 25. Annual reports will be made then and directors chosen for the year's business.

Preferred as well as common stockholders are entitled to vote this year since the former stock becomes voting 24 months after dividends are omitted.

No official report of the company's earnings for the year 1933 has been made. It is understood the mill's business has improved in quantity and price since mid-summer last year and heavy losses sustained earlier in the year have been overcome. This has been especially noticeable as the contracts at low prices anticipated and the mill obtained the advantage of a higher price level now prevailing in the paper industry.

### Open Pulp Mill At Newberg, 24th

Next Wednesday, January 24, has been set as the opening date for the Spaulding Pulp mill at Newberg. Charles K. Spaulding, president, announced here yesterday. Already several hundred cords of pulpwood have been assembled at the plant and the machinery of the mill has been thoroughly overhauled in anticipation of opening.

Spaulding said one order for 2000 tons of pulp was on hand from Japan. He anticipates that as soon as the mill is operating a considerable tonnage for pulp will be developed on the east coast.

W. J. Witt of Salem has been selected to manage the mill which has been closed for more than two years.

A steady advance in the price of pulp in the last six months has made possible reopening, Spaulding stated.

Lawrence of Portland.

It is the only organization of its kind in the northwest, and is composed of students from the Priscilla Meisinger studios. Feller of Donald re-elected directors of the Farmers' Fire Relief association of Butteville at the annual meeting held yesterday at Donald. Jones will serve for three years and Feller for two. Holdover directors are George S. Berg of Canby, W. R. McKay, Hubbard route one, and Martin Rustvold, Woodburn route two.

The financial report of C. J. Terhaar, secretary, showed that \$9617.44 in fire losses had been paid during 1933, net amount of property at risk December 30 was \$8,141,334 and a cash surplus of \$39,379.03. During 1933 the surplus increased by \$36,202.68.

### Theatre Code Bars Lotteries

Code restriction for the motion picture exhibitors' industry forbids the offering of lottery prizes, such as automobiles, dishes, refrigerators or any such awards, as an inducement to attend the show, according to interpretation of the code received by William P. Ellis, general in the Salem area.

Offering two for-one tickets, that is, two admissions for the price of one ticket, is also a definite violation of the code, according to the interpretations.

These practices have grown in the past few years, and seem to be fairly general over the country, but unless theatre operators abandon the violations at once, the NRA will be forced to take action if complaints are made by competitors.

### DRUNKEN DRIVER GETS JAIL TERM

A six months jail sentence and \$100 fine were imposed on Jack Dawson, 266 State street, by Justice of the Peace Hiram Overton at Woodburn yesterday when Dawson pleaded guilty to a charge of drunken driving. State police arrested Dawson Tuesday night after a truck he was driving ran into the girders of the Pudding river bridge just north of Aurora. They declared Dawson's truck struck the bridge railings on both sides in several places.

Dr. Y. T. Lam, who has offices in Salem and Portland, narrowly escaped collision with the truck. Seeing the heavy vehicle approaching in an erratic course he backed his own car the length of the bridge.

Dawson, police said, was the man fined \$25 in municipal court here in October on a charge of being drunk and disorderly. They declared he jumped on the running board of a car driven by James Uebelman, 1580 Madison street, and broke out a window, from which a piece of glass pierced Uebelman's wrist. Uebelman drove away so hurriedly that Dawson was unable to jump off, and brought Dawson to police headquarters where he was arrested.

### Davidson Gives Plan to Select Oratorio Soloists

Only those soloists who will become affiliated with the Oratorio Chorus, organized here last winter largely from the church singers of the city, will be given solo parts in the next presentation, "Holy City" by Gail, Prof. Loren Davidson, director, said yesterday. This follows a ruling of the executive committee.

All who aspire to the featured parts should register with Mr. Davidson before the end of this week, as competition to select the soloists will be held shortly. The oratorio will be presented during the music week activities in May.

"We are not seeking professionals for the chorus, but rather are trying to encourage those who have not yet reached that stage," Mr. Davidson states.

### NEW NRA RULINGS AFFECT INSURANCE

Important NRA rulings, affecting fire insurance underwriters and seed store operators, are announced by William P. Ellis, NRA general locally.

Fire insurance underwriters, due to the press of business attendant on first quarter policy renewals, will be allowed to work all employees 54 hours a week during the first eight weeks of 1934. General Hugh S. Johnson has ruled. All overtime must be paid at rate of time and one-half.

Retail seed stores, heretofore exempt from the retail store code, must conform to the wage and hour restrictions of that code in future, it was held. Seed stores have been exempt as their merchandise is to be administered under AAA regulations, but NRA has ruled that employees should be employed on same basis as other retail establishments.

### Four-H Leaders To Meet Saturday

### Local Counsel To Present Plea For Coquille Work

William P. Ellis, local attorney, will leave here Saturday for Washington, D. C., where he will appear before the board of engineers in the rivers and harbors department in connection with a project for improvement of the Coquille river and bar. Hearing on the project is slated for January 29, and Ellis expects to return here early in February.

In recent months the division engineers at San Francisco have recommended modification of the 16-foot project on the Coquille to a 13-foot depth, on grounds of unjustified expense. In representing the port of Bandon at the hearing, Ellis will urge the original project which will permit entrance to the harbor of 18 to 20-foot draft boats. Now only flat bottom boats of not more than 14-foot draft can enter. District engineers have estimated the project will cost \$600,000.

W. J. Sweet, president of the Bank of Bandon, may accompany Mr. Ellis.

### Many Apply for Old Age Pensions; Finish 'B's' Today

Old-age pension applicants continued numerous at the courthouse yesterday, men and women whose names begin with "B" in the county directory. Yesterday applicants whose names begin with "B" were to be handled but the rush was so great some of the "B" applicants were told to return today. These will be handled a long with as many "C" name applicants as the examiners can accommodate. Each succeeding day applicants whose names begin farther down the alphabet will be called.

Most applicants come to the courthouse with insufficient information for the examiners. Much of this will be gained when the county's investigators go into the field to gain more information about each claimant. This work will be under the direction of Miss Thora Boesen. No pensions will be paid until the applicant's personal situation has been carefully checked. The county court has also announced it will not grant pensions until all applications have been received.
