# "Stratoplanes" in Year—U. S.—British Aim

Successes of experiments on both sides of the Atlantic make feasible the prediction that a journey from New York to London in 2 1/2 hours, via the stratosphere, may be accomplished within a year. Prof. J. B. S. H. Ridge, Massachusetts aviator, proved that a man can live under atmospheric pressure equal to that encountered in the stratosphere, without artificial aid. On this side of the Atlantic, "Ted" Hanna of Cleveland and Ernest Loebell, German engineer, have developed a motor which they believe capable of lifting a craft to the stratosphere. It is a rocket motor, which they plan to install in a rocket ship and shoot 15 miles into the stratosphere. No passengers will make the trip, but scientific instruments will be sent up, which will be returned to earth via parachute.

**Now! Ease Sore Throat Instantly!**

- Crush and dissolve 3 Bayer Aspirin Tablets in half a glass of water.
- GARGLE thoroughly—throw your head way back, allowing a little to trickle down your throat.
- Repeat gargle and do not rinse mouth, allow gargle to remain on membranes of the throat for prolonged effect.

Remember: Only Medicine Helps Sore Throat

Modern medical science now throws an entirely new light on sore throat. A way that eases the pain, rawness and irritation in as little as two or three minutes!

It requires medicine—like BAYER ASPIRIN—to do these things! That is why throat specialists throughout America are prescribing this BAYER gargle in place of old-time ways.

Be careful, however, that you get real BAYER Aspirin for this purpose. For they dissolve completely enough to gargle without leaving irritating particles.
