was not planned to put investigators on each of the major projects unless there were specific reasons.

"Where there is a reason to believe there is skulduggery or tip of something amiss, we will investigate," he said.

While the graft charges topped civil works developments today, the Roosevelt administration proceeded with its plans to end the work of this relief agency not later than May 1. The president conferred with the civil works administrator, Harry L. Hopkins, and the director of the budget, Lewis Douglas.

It was reported the president planned to send a message to congress tomorrow recommending an appropriation of \$350,000,000 to continue the civil works to May 1.

This decision was made despite clamors from some congressional quarters and elsewhere for an indefinite continuation.

and dogs and the heavier surging of tractors.

The road is 15 feet wide and four and a half miles long. The Boston Post road is no finer. To and fro along it passes a ceaseless transport. Fifteen dog teams trotting ahead of sledges piled with boxes are interspersed with three tractors hauling heavy sledges stacked with gasoline.

To the right of the road, the monoplane "Miss American Airways" takes off at regular half hourly intervals for Little America, its cabin piled with food boxes.

There is no stop to the transport so long as the weather holds. It goes on under the high moon and the frostier slow-sinking sun of midnight.

stamps and boulders. Persons acquainted with the characteristics of blasting powder declared there had been little danger of the stuff exploding unless it was quite old.

The package containing one stick was received and opened by Manager E. T. Barnes of the re-employment agency, who warned Administrator Glenn C. Niles before the package containing three sticks and addressed to R. C. Churchill, complaint man at the CWA office, had been opened.

The grafting done by Dr. Berg included work to restore the web between the thumb and forefinger and grating and tendon work was done on the back of the little finger near the joint ext to the hand and on the bad-burned front of the finger next to the little one.

Groves was burned Christmas day, when he picked up a live wire of 2300 volt power which was hanging low over the first green on the Illahee golf course.

BONNEVILLE WORK IS IMPEDED AGAIN

PORTLAND, Ore., Jan. 25.—(AP)—Work at Bonneville dam has been impeded by another rise in the Columbia river, United States engineers said today.

The river rose a foot in 24 hours and rise of another foot has been expected. The boat rock gauge reads 30.25 feet and the upper Cascade Locks gauge 54 feet.

Most of the excavation and cofferdam work of the General Construction company has been temporarily halted, but will be resumed as soon as possible.

Clearing for the 490-man construction camp at Bonneville has been commenced by about 30 swamper. It and other preliminary work is going ahead as scheduled.

Fewer Sheep and Lambs on Feed in State at Present

There was a decrease of about 8.5 per cent in the number of cattle on feed for market in the eleven corn belt states January 1, 1934, over the number on January 1, 1933, according to the cattle feeding estimate of the bureau of agricultural economics. There were decreases in all states except Iowa and Nebraska, where small increases are estimated. The decreases in the area east of the Mississippi river, where cattle feeding had been increasing for several years, amounted to 17 per cent. In the area west of the Mississippi, the decrease was only 6 per cent in spite of a decrease of 50 per cent in South Dakota.

In the western states the number of cattle on feed January 1, 1934, was not greatly different from the number a year earlier, a small decrease being indicated. In Texas and Oklahoma, however, the number on feed this year was sharply reduced, with the estimated number this year for the two states combined one-third less than a year earlier. Shipment of feeder cattle into the Lancaster, Pennsylvania, feeding area also indicated a material reduction in feeding from last year.

PRESIDENT'S BALL PLANS COMPLETED

sible through a mutual agreement between Mr. McElroy and "Boots" Grant, director of a local orchestra, to whom the contract had been awarded. With Mr. McElroy's orchestra will be a group of special entertainers who will entertain not only during the intermission but throughout the dance program.

One of the special features of the evening will be a number of vocal solos by Kenneth Allen. Formalities of a receiving line will be dispensed with. Promptly at 9 o'clock, a grand march will commence which will be led by Governor and Mrs. Meier, Major General and Mrs. White, Mayor and Mrs. Douglas McKay and a number of other distinguished guests.

The grand march will close with a special patriotic ceremony and tribute to the president, after which dancing will commence. By special arrangement, dancing will continue until 1 a. m.

The army, which is to provide the principal ballroom, has been thoroughly renovated and will be open to the public for the first time on the night of the ball. Decorators will commence their work on beautifying the ballroom tomorrow. In view of the patriotic nature of the affair, flags and bunting will predominate in the decorative scheme, although there will be a profusion of evergreens, flowers and plants. The new maple floor will be used for dancing for the first time and it is said to be the finest dance floor in the Willamette valley.

In view of the expected attendance, arrangements have been completed for a covered runway into the Marion hotel in order that the facilities of the dining room as an auxiliary ballroom may be used.

The committee again urges that responses be made by all those receiving invitations. Even in cases where individuals find it impossible to attend the ball, the admittance card should be returned inasmuch as the national organization requires the auditing committee to account for every ticket issued.

Here's Call For Help

By MRS. WILLIAM H. QUINN
Culbertson Associate

When the opening bidder has been doubled on his left and his double has been left in by the opponent on his right, a redouble is a cry for help. The redouble commands his partner to rescue him in his longest suit, even if a worthless four-card suit.

If the declarer were satisfied with his contract doubled, he obviously would pass. If he redoubles, he is telling his partner that he is caught between two strong hands and his redouble is a demand that you find a better bid.

Example of the SOS redouble:

Take-out doubles of 1 no-trump are often left in by the opponents—for penalties—so we find frequent use for the defense against a penalty pass.

Take-out doubles and penalty doubles are frequently confused. The following chart may prove helpful:

The most absorbing love drama shown on the screen of the Elsinore for many years opens today as "Only Yesterday," starring John Boles and Margaret Sullivan.

The story covers the exciting period between the entrance of America into the world war and the cataclysmic stock market crash of November, 1929. Against this panorama of American life is portrayed a vitally poignant love story. It details the romance of Margaret Sullivan, playing an adorable southern belle and John Boles, the handsome thoughtless officer, Miss Sullivan, making her movie debut straight from "Dinner at Eight" on Broadway, will also make screen history by her brilliant performance. You will see a new star born here.

forcibly taken from jail here last night, hanged in a mountain grave yard in adjoining Knott county and a score or more of bullets fired into his body.

Alex Johnson, 21, a coal miner, whom Scott was alleged to have beaten with a stick here last Saturday night, died shortly after the lynching. All four men held today were said by county officers to have worked in the same coal camp as did Johnson, who left a widow and a four-year-old daughter.

new, five and tubes over a two-year period for an aggregate mileage of 109,000 miles.

However, improved financial condition of the commission over last year was reported by Starr. He attributed it chiefly to reduction of poundage fees by the legislature.

Involved in the game department funds was \$33,908.91 fines assessed the past four and one-half years. According to Oregon statute 50 per cent of the fines goes to the game department.

Ernest L. Crockett, assistant supervisor of the game department, consented to the commission's permission to continue collections on more recent cases. Crockett then asked the investigation, which was authorized.

Financial accounts of fines, kept by the game department, consist mainly of state police reports, it was stated. These indicate only the conclusion of the court action. Other disposition of game cases was not fully recorded.

In an effort to clarify records, letters were sent to 76 justices of the peace throughout the state and 21 former justices. When the replies have been received a check will then be made with county treasurers. This, it was explained, is necessary if the accounts are to be brought to date. The letters were mailed January 19, it was stated.

Makley and Clark submitted, officers said, only after police pistols had been brandished and officers had threatened to shoot. One of them attempted vainly to wrest a pistol from an officer. The three were booked as fugitives from Indiana.

The captures brought to an end a reign of terror that began last September 26, when Makley and Clark and eight companions escaped from the prison at Michigan City, Ind. Their first move, officers said, was to Loma, O., where John Dillinger was being held in jail. Two of the gang invaded the jail, shot to death Sheriff Jess Sarber and liberated their chief.

Always the finest tobaccos and only the center leaves are purchased for Lucky Strike cigarettes. We don't buy top leaves—because those are under-developed. And not the bottom leaves—because those are inferior in quality. The center leaves—for which farmers are paid higher prices—are the mildest leaves. And only center leaves are used in making Luckies—so round, so firm—free from loose ends. That's why every Lucky draws easily, burns evenly—and is always mild and smooth. Then, too—"It's toasted"—for throat protection—for finer taste.
