## Pattern

1643

By ANNE ADAMS  
When planning little sister's spring wardrobe, be sure to include this cunning frock, with its adorable drop shoulder yoke, fetching collar and frill of contrast, and snappy pleats that lend such freedom for play. The long sleeves are good for the early chill days of spring—they may be removed later and the frock worn sleeveless. Bloomers to match are included with the pattern. We'll wager you'll use the pattern a second time after you've studied the small views that show you two other neckline treatments.

Pattern 1643 is available in sizes 2, 4, 6, 8 and 10. Size 4 takes 2 1/2 yards 36 inch fabric and 1/2 yard contrasting. Illustrated step-by-step sewing instructions included.

# GAS RATES REDUCED

The Portland Gas & Coke Company announces new reductions in gas rate schedules... affecting HOUSEHEATING RATES and COMBINATION RESIDENTIAL RATES (New rates in effect January 1, 1934)

The granting of our application for this reduction in the Willamette Valley gives to this city gas househeating rates almost as low as "natural" gas rates in many cities.

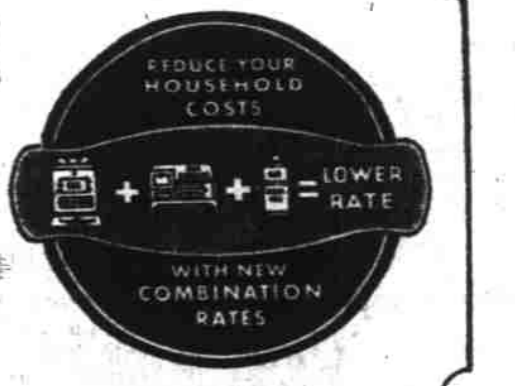

Some Monthly Comparisons of Old and New Rates for Househeating

Amount of Gas Used	Old Rate	New Rate	MONTHLY SAVING
10 thousand cu. ft.	\$ 7.10	\$ 5.63	\$ 1.47
20 thousand cu. ft.	12.99	8.96	4.03
30 thousand cu. ft.	18.88	12.28	6.60
40 thousand cu. ft.	24.77	15.61	9.16
50 thousand cu. ft.	30.66	18.93	11.73

(Proportionate reductions on larger gas consumption)

How to Benefit from the NEW Combination Residential Rates  
Your rate for gas used for cooking, water heating or both together can be reduced in most instances by adding a gas furnace for househeating. Ask us to explain how you can benefit from this new combination, thereby getting the lowest possible gas rates for your service.
